## CHARNEL HOUSE IN SUB S-51 GIVES UP DEAD

### 6 BODIES ARE IDENTIFIED, TWO BEING OFFICERS

WORK OF TAKING OUT DEAD IS COMMENCED EARLY THIS MORNING

EIGHT BODIES REMOVED FROM ILL-FATED SUBMARINE BY 2 P. M.

Navy Yard, Brooklyn, July 9.—Of the bodies removed from the submarine S-51 today, the following have been identified: Lieutenant Frederick D. Foster, Nutley, N. J. John Joseph McCarthy, seaman first class, New York City. Charles Carroll Thomas, fireman, El Paso, Texas. Ensign Edmund Webber Eggert, Bar Harbor. George Henry Martin, negro cook, Philadelphia. Frank Lester Mims, Augusta, Ga.

17 BODIES RECOVERED UP TO 3 P. M. TODAY

Navy Yard, Brooklyn, N. Y., July 9.—One by one the navy today wrung from the wrecked submarine S-51 its dead.

At noon the first body was brought from the interior of the ship on the dry dock here, placed in a hearse and with a marine guard riding beside the driver, carried to the naval hospital. Then through the afternoon trip after trip was made until after 3 P. M., 17 bodies, six of them identified, had been brought out.

Secretary of Navy Wilbur arrived in the midst of the operation and thoughtfully watched as several of the sailor dead were brought from inside the ship's hull.

The body of Lieut. D. F. Foster of Nutley, N. J., was found with one hand reaching for the control valve, an officer dead at his post and trying to save his ship.

Two men were found huddled near a pipe at which they had hoped to gain one more breath of air as they died.

Secretary Wilbur announced the navy intends to place the S-51 in commission again.

Navy Yard, Brooklyn, July 9.—(UP)—The submarine S-51 today began to give up its dead.

Soon after noon a slow moving morgue wagon, a marine guard seated beside the driver and a motorcycle policeman preceding, drew up to the naval hospital morgue here and from it was carried the first body recovered from the interior of the submarine.

There was no announcement of identification, if any had been made.

The second and third bodies were brought to the morgue shortly before 1 o'clock. Hospital authorities announced that the first body was in fairly good condition and that it might be possible to identify it by finger prints, but that the second and third were badly decomposed.

The fourth and fifth bodies were brought to the morgue at 1:30 P. M. The sixth body was removed and taken to the morgue shortly before 2 P. M.

One of the bodies was identified as that of Lieutenant Frederick D. Foster of Nutley, N. J.

Soon after 2 P. M. two additional bodies were brought to the morgue, bringing the total recovered to eight. Two more bodies were removed from the submarine bringing the number to 10.

The eleventh body was recovered at 2:45.

### ACETYLENE BLOW TORCHES CUT STEEL

Brooklyn, N. Y., July 9.—Armed with acetylene blow torches, navy men today burned their way into the rusted steel hull of salvaged submarine S-51 lying exposed above the sluggish water of Brooklyn navy yard dry dock.

Only a few feet of water remained in the basin as a crew was sent over a newly rigged gangway to blast open the hatch above the torpedo room where bodies of the vessel's crew were believed to lie.

A board of naval examiners headed by Captain L. J. Lenny and Commander W. H. Patchly were to be the first to enter the ship.

### DOGS' BARKING LEADS TO BODY OF A SUICIDE

Chisholm, Minn., July 9.—(UP)—Barking of dogs in a woods led neighbors to the body of Alex Peterson, 60, a farm hand, who had committed suicide by cutting his throat with a razor. A note saying he was tired of life and did not want to be a burden in his old age was left by Peterson.

### COOLING RAINS BRING RELIEF TO MIDWEST

THAT AREA HAD PARCHED UNDER HOTTEST SUN OF SUMMER

DEATH DEALING HEAT WAVE NOW TEMPORARILY STILLED

Chicago, July 9.—(UP)—Cooling rains today brought relief to the midwest, parched yesterday under the hottest sun of the summer. Rain was general throughout the entire section hit by yesterday's death dealing heat wave, the direct cause of many fatalities. Thermometers from the Canadian border to the Ohio river and from Nebraska to Indiana, which today registered in the 80's yesterday, were soaring some 10 degrees higher.

Four persons died of the heat in Chicago and many more were overcome. St. Paul and Minneapolis each had one death and several prostrations. Similar reports came from other Mississippi valley cities.

Peoria, Ill., with the mercury touching 94, sweltered in the highest temperature of the central region. It was 92 in Dodge City, Kas.; Milwaukee, Chicago and Springfield, Ill., and 90 in Davenport, Ia.

High humidity made the heat particularly unpleasant, causing approximately 100,000 persons to repair to the lake beaches in Chicago and countless thousands in other places to swimming pools and bath tubs.

A terrific downpour of rain and hail, sweeping Kansas City, Mo., last night, drove families from their homes and flooded basements and streets.

Lightning damaged the power plant in Kansas City, Kas., putting the lighting system out of commission for half an hour. The storm was local in character, however, rainfall in the rest of the middle west being normal.

Central and western Canada, as well as the middle west, also suffered from intense heat, which today was broken by a series of damaging thunderstorms.

### Slept With His Arm Across Railroad Track

Benton Harbor, Mich., July 9.—(UP)—Harvey Bliss, Racine, Wis., went to sleep with an arm lying across the Pere Marquette railroad track here today, according to police. A switch engine severed his arm. Police said he had been drinking.

Chill ocean waters may have preserved the bodies of the officers and men who died nine months ago in the sinking of the submarine S-51 and recognition by relatives may be possible when the salvaged craft, now drydocked here, is opened today, in the opinion of Commander Edward Ellsberg, salvage officer.

Colleagues of the dead men now serving on the S-51, sister ship of the S-51, will be present when the hull is broken open, to aid in the work of identification. Commander Ellsberg believes that the bodies of 20 men will be found, although there is no definite knowledge of how many died trapped in the hull, or how many escaped to drown in open sea, when the S-boat was rammed by the steamer, City of Rome, last fall.

The submarine rested on great wooden blocks in dry dock No. 4 of the yard. Yesterday's pumping lowered the water level in the dock until the conning tower and a foot of the deck were visible.

More was not pumped out in order that water be left in all compartments to aid in preserving the bodies. Twelve marines form a guard of honor about the dry dock and the half masted Stars and Stripes above the steel coffin of the dead.

### ROUNDUP TO BE HELD AS ADVERTISED

MINNEAPOLIS AMERICAN LEGION SO INFORMS HUMANE SOCIETY

LATTER THROUGH SAM FULLERTON HAD PROTESTED SHOW WAS "BRUTAL"

Minneapolis, July 9.—(UP)—The Minneapolis American Legion notified the Minnesota Humane society today that the roundup at the Minnesota fair grounds would be held as scheduled.

Through Sam Fullerton, secretary of the Humane society had protested against the roundup, contending that it was "brutal" and on a par with the bull fights of Mexico and Spain, because of the use of spurs and the bulldogging and "broncho busting" contests.

Replying to the attack officials of the Legion drum and bugle corps, which is promoting the event, declared that animals do not suffer in rodeos and that the only injuries are suffered by cowboys.

The Legion invited an investigation of "Badland Bill" McCarthy, who is directing the rodeo, declaring McCarthy is "one of the most picturesque ranchers in the country, the owner of 10,000 acres of land in North Dakota and a lifelong friend of the late Theodore Roosevelt."

The statement said members of the Legion witnessed rodeos at Dickinson and Mandan, N. D., and observed no cruelty to the animals that were used.

### REPUBLICAN CONGRESSIONAL CAMPAIGN ON

SEEK TO RAISE \$400,000 TO FIGHT THE INDEPENDENTS

WILL ALSO BATTLE DEMOCRATS IN THE FALL ELECTIONS

By PAUL R. MALLON (United Press Staff Correspondent)

Washington, July 9.—Republican congressional campaign committees set out today to raise \$400,000 to fight independents and democrats and the fall congressional elections.

Advances will be made from the fund to aid needy administration senators and representatives in the races to determine control of the congress with which President Coolidge will have to deal the last two years of his term.

Betting is one to three in Washington now that the democrats will win the next senate and two to one that the upper house will at least be controlled by a democratic-independent majority. The situation in regard to the lower house is less easily surmised.

With the launching of the \$400,000 campaign by the republicans, the campaign committees of both parties are swinging into action. Only about \$25,000 has been raised by democrats but more is expected to be forthcoming in contributions shortly. The democrats will not need much money for the primaries but intend to center their operations on the November elections when the interparty tickets clash.

### DENY U. S. WOULD EVER MARKET FOREIGN GOVERNMENT BONDS

Washington, July 9.—(UP)—High treasury and debt funding commission officials today categorically denied the possibility that the United States ever would put on the open market any of the \$7,000,000,000 in foreign government bonds held under debt settlement agreements or any of the \$4,000,000,000 more to be received if the French war debt settlement is approved.

Secretary Mellon, when told of the charge of Franklin Bouillon, French deputy, an opponent of ratification, that Germany might buy the bonds and present them to France for collection at an unfortunate moment, said: "The world might come to an end, too."

### DA COSTA REGIME OUSTED BY CARMONA IN PORTUGAL TODAY

Lisbon, July 8, 2:20 p. m.—(UP)—General Carmona today led a successful revolution against the revolutionary government recently installed by General Gomes Da Costa.

General Gomes proclaimed himself dictator of Portugal on June 27, after a successful revolution which at first was alleged to have had some royalist connections. Subsequently prominent royalists publicly denied that they had been concerned in Gomes' coup d'etat in any way. Gomes said he would retire to private life if he found any serious division in the army, but apparently he had made no move to retire when today's revolution took place.

Portugal has been an independent state since the 12th century and was a monarchy until 1910 when a revolution resulted in the proclamation of a republic on October 5. Since then revolutions have come and gone usually without large loss of life. King Manuel, who was deposed in 1910, ascended to the throne on the assassination of his father and elder brother.

### ISOLATED FIGHTING ON THE RUMANIAN BULGAR FRONTIER

10 RUMANIAN SOLDIERS REPORTED KILLED IN THE SKIRMISHES

RUMANIA ADDRESSES A SEVERE NOTE OF PROTEST TO SOFIA

Athens, July 9.—(UP)—Isolated fighting was reported today from the Rumanian-Bulgarian frontier where 10 Rumanian soldiers were reported to have been killed. Rumania addressed a severe note of protest to Sofia.

The death of one Rumanian gendarme in a frontier skirmish with Bulgarians was announced yesterday in Bucharest. The jealousies of the Balkans, especially with regard to the post-war division of territory and new frontiers, have caused a series of bloody incidents along virtually every Balkan frontier at one time or another since 1918. The latest serious disturbance occurred last autumn when Greece sent a considerable army into Bulgaria after a frontier skirmish had developed into an open fight.

### DROWNED IN RIVER WITH HELP BUT A FEW FEET AWAY

Winona, Minn., July 9.—(UP)—With help but a few feet away Charles Clemens, 50, of Winona, drowned in the Mississippi river late Thursday.

On the river bank when Clemens went down was Frank White, a friend, who had not entered the water. White heard Clemens cry for help, but thought his friend was joking and did not go to his assistance.

When Clemens went down for the last time, White became alarmed, but it was too late to go to the rescue. Search for the body is being made.

### 13 KILLED BY RAINS, FLOODS IN GERMANY

Berlin, July 9.—(UP)—Thirteen persons were reported to have been killed today in accidents attributable to heavy rains and floods.

Seven flood relief workers were reported to have been drowned during a thunder storm at Augsburg. A train wreck at Mago, between Warsaw and Crkown, is reported to have caused the deaths of two persons and the serious injury of eight others. The train was derailed.

Lightning struck near Simbach, according to a dispatch from Munich, killing four workmen and injuring eight.

Berlin, July 9.—(UP)—The river Elbe broke its dykes near Dessau today, according to a dispatch received here, flooding surrounding farms.

### EFFICIENCY OF NEW AIR MAIL DEBATED

NORTHWEST-CHICAGO SERVICE SCANNED BY FEDERAL OFFICERS

PILOT BLACK ADDS NEW RECORD TO HIS CREDIT YESTERDAY

St. Paul, July 9.—(UP)—While federal officials debated the efficiency of the northwest-Chicago air mail service Thursday, Pilot Nimmo Black arrived in St. Paul with a new record to his credit.

The record was established between Chicago and Milwaukee. Black flew the distance in 30 minutes, snipping five minutes from the previous fastest time. He also arrived in St. Paul 20 minutes ahead of time, but did not set a new record.

W. A. Kidder, northwest representative of the contractor, in charge of the service, came to the defense of the air mail and announced records, which, he declared, showed that in 80 per cent of the trips, mailers were given far better service than they could have obtained in any other way.

Kidder's statement was a reply to the letter sent by Arch Coleman, postmaster of Minneapolis, to Washington, in which it was charged the service was "unsatisfactory" and only 50 per cent efficient.

"The air mail service is now a delicate, living thing, subject to many difficulties, but everything is being done to establish it as dependable," Kidder said.

### REPRIEVE GIVEN JUST BEFORE EXECUTION SET

GOV. McMULLEN OF NEBRASKA SAVES LIFE OF DONALD RINGER

20 YEAR OLD BOY SENTENCED TO DEATH FOR MURDER OF AUTO SALESMAN

Lincoln, Neb., July 9.—(UP)—Just four hours before he was to have been electrocuted at the state prison here, Governor Adam McMullen early today granted Donald Ringer, 20 year old boy, Hastings, Neb., a reprieve until July 13.

The reprieve was granted at 3 A. M. after the governor and attorney general, O. S. Spillman, had conferred four hours over a telegram from a Dr. Cameron of Kearney.

Ringer was sentenced to die at 7 A. M. today for the murder of Carl W. Moore, Hastings automobile salesman, October 16, 1924.

The telegram from the Kearney doctor read: "The picture of Carl Moore resembles the youth I treated the night of October 19, 1924."

J. E. Willits, Hastings, attorney for the condemned youth, hurried to Lincoln last night with the telegram from the physician and the governor called the conference at 11 P. M.

"Thank God," exclaimed the condemned youth when the word of the reprieve was given him as he sat quietly sobbing in the death cell. Ringer professed his faith in God yesterday.

The state board of pardons will meet July 13 to consider the statement of physicians and any other new evidence presented.

### T. C. HARTMAN, DULUTH, KILLED IN AUTO ACCIDENT

Duluth, July 9.—(UP)—Telford C. Hartman, 35, president of the Wieland Shoe company and a prominent Duluth business man, was killed in an automobile accident at South Superior, Wis., today.

Hartman was pinned beneath his automobile when it overturned while rounding a curve. It is believed the automobile skidded on a pavement which was slippery with rain.

The body was found wedged between the steering wheel and a bar at the top of the automobile. Death is believed to have been instantaneous.

### HOOVER SAYS HE HAS NO POWER TO REGULATE ETHER

Washington, July 9.—(UP)—Radio broadcasting in the United States is entirely without regulation today. Secretary of Commerce Hoover, making public an opinion from the justice department, asserting that he has no power whatever to regulate the ether, expressed a hope for "voluntary self regulation by the industry itself."

### DURKIN CASE SOON IN HANDS OF THE JURY

DEFENSE ATTORNEY MCGERRY TO FINISH CLOSING ARGUMENT BY NOON

THE STATE WILL THEN CLOSE, AND DURKIN'S FATE RESTS WITH JURY

Chicago, July 9.—(UP)—The case of Martin Durkin, on trial for killing Federal Agent Shanahan, was expected to be in the hands of the jury before night.

Defense Attorney Eugene McGerry intended to finish his closing argument for Durkin by noon. The state will then close, leaving Durkin's fate with the 12 men who will decide whether he shall be freed or hanged.

Both attacking the "lawlessness of the law" and lauding Shanahan's zeal, McGerry told the jurors just before the court adjourned late yesterday that Detective Sergeant Naughton was the "real murderer of Shanahan."

Shanahan was shot and killed when he attempted to arrest Durkin in a Chicago garage, October 11, 1925. Naughton, according to his own testimony, had left the garage before the shooting and had ordered Shanahan in. The defense contends that Durkin thought that the federal officer was a robber and also that Shanahan, being a federal agent, had no authority to make arrests.

Asserting that had Naughton attempted to make the arrest, as was his duty and not Shanahan's, there would have been no shooting, McGerry turned around and pointed at Naughton in the court room.

"Where are you, Naughton?" McGerry shouted. "Get down on your knees and pray for the forgiveness of God. You're the murderer of Shanahan! You're the man who ought to be on trial and not James Martin Durkin!"

Upon this tense declaration court adjourned for the day.

### SAYS HALF OF CHICAGO POLICE ARE BOOTLEGGING

Chicago, July 9.—Half of Chicago's police are in the bootlegging business, Defense Attorney Eugene McGerry charged today in a brilliant appeal to the jury to acquit Martin Durkin.

"Why should Martin Durkin, a confessed bootlegger, find it necessary to kill an officer, when he had policemen on his bootlegger payroll and could obtain immunity from arrest with ease?" McGerry asked the jury.

"I tell you," he continued, "half of Chicago's police are in this bootlegging business."

McGerry, who is chief counsel for the man accused of slaying Edwin C. Shanahan, a federal officer, brought the court into an uproar as he tossed a series of verbal bombshells into the administration of justice in Chicago.

State's attorneys leaped to their feet with violent objections, some of which were sustained and others of which were overruled.

Once Judge Harry B. Miller found it necessary to warn an assistant state's attorney against the use of profanity.

"The state would have you gentlemen of the jury believe," McGerry shouted over the uproar, "that they want to convict Martin Durkin in the interest of national law enforcement. They are lying. They want to convict Martin Durkin because they cannot explain why one of their own number, Assistant State's Attorney William McSwiggin, was shot to death with a party of bootleggers."

### COMMUNAL DISORDERS GROW SERIOUS IN INDIA

MOSLEM MOBS LOOT AND BURN HINDU VILLAGES

MANY PEOPLE KILLED IN PABNA WHEN POLICE FIRE ON MOB

Allahabad, British India, July 9.—(UP)—Serious communal disorders in which Moslem mobs looted and burned Hindu villages and bazaars in various localities within an area of 500 square miles around Pabna were reported today.

The disorders were reported spreading rapidly. Police and military reinforcements today were rushed to the disturbed area.

Elsewhere Hindu and Moslem populations were comparatively quiet but tension was acute wherever communities of the two sects existed.

Many persons were reported to have been killed in Pabna when the police fired on a mob attempting to release prisoners which were being escorted to jail.

Drastic precautions have been taken. The potentialities of the situation were especially large now because the Moslem feast of Muharrum begins soon as do several Hindu festivals. It is significant of the feeling of the population that debates in provincial legislatures have shown party politics to be abandoned with all the legislators voting strictly according to their religion.

Hindus and Moslems have been engaged in intermittent communal warfare for years. During last April there were serious disorders which culminated in stoppage of ordinary business and virtual mob rule in many cities until the military and police took firm measures to restore normalcy. Trouble usually arises when a Hindu shows his scorn for Moslem traditions or vice versa. A frequent cause of fighting is the Hindu practice of marching past mosques behind music.

### ST. PAUL MAN HELD ON LARCENY CHARGE

Fargo, N. D., July 9.—(UP)—A deputy sheriff was due here today to return Walter Pooler, alias Walter Kellogg, to St. Paul.

Pooler, was married in May and has been employed at a garage here, was arrested Thursday at the request of St. Paul authorities who said he was wanted for grand larceny and forgery.

Pooler said he would return to St. Paul and waive extradition proceedings.

### 2 CLOSED COUNTRY BANKS REOPENED

St. Paul, Minn., July 9.—(UP)—The Farmers and Merchants State Bank of Rosseau, which closed Jan. 14, and the Farmers and Merchants State Bank of Hinckley, which closed November 9, 1925, were reopened today, the state banking department announced. The Rosseau bank now has \$25,000 capital and the Hinckley bank, \$10,000.

A 25 per cent dividend was paid to depositors of the Ruthton State Bank and 15 per cent to depositors of the State Bank of Hendrum.

### FRAU LUDENDORFF GRANTED DIVORCE FROM WAR MARSHAL

Berlin, July 9.—(UP)—Frau Ludendorff today was granted a divorce from the famous war time marshal, the Munich court characterizing Ludendorff as the offending party. During the trial the marshal included among his objections to his wife's conduct the fact that she smoked cigarettes.

### HOLD 3 ON CHARGE OF ROBBING STORE

Duluth, July 9.—(UP)—Three Duluth young men were held in jail here today accused of having been the trio who robbed a wholesale hardware store of \$1,500 in merchandise.

They were arrested Thursday night. Detectives who have been investigating the robbery recovered the merchandise secreted in a shack at the outskirts of Duluth.

RUMANIA ADDRESSES A SEVERE NOTE OF PROTEST TO SOFIA

Athens, July 9.—(UP)—Isolated fighting was reported today from the Rumanian-Bulgarian frontier where 10 Rumanian soldiers were reported to have been killed. Rumania addressed a severe note of protest to Sofia.

The death of one Rumanian gendarme in a frontier skirmish with Bulgarians was announced yesterday in Bucharest. The jealousies of the Balkans, especially with regard to the post-war division of territory and new frontiers, have caused a series of bloody incidents along virtually every Balkan frontier at one time or another since 1918. The latest serious disturbance occurred last autumn when Greece sent a considerable army into Bulgaria after a frontier skirmish had developed into an open fight.

### DROWNED IN RIVER WITH HELP BUT A FEW FEET AWAY

Winona, Minn., July 9.—(UP)—With help but a few feet away Charles Clemens, 50, of Winona, drowned in the Mississippi river late Thursday.

On the river bank when Clemens went down was Frank White, a friend, who had not entered the water. White heard Clemens cry for help, but thought his friend was joking and did not go to his assistance.

When Clemens went down for the last time, White became alarmed, but it was too late to go to the rescue. Search for the body is being made.

### 13 KILLED BY RAINS, FLOODS IN GERMANY

Berlin, July 9.—(UP)—Thirteen persons were reported to have been killed today in accidents attributable to heavy rains and floods.

Seven flood relief workers were reported to have been drowned during a thunder storm at Augsburg. A train wreck at Mago, between Warsaw and Crickow, is reported to have caused the deaths of two persons and the serious injury of eight others. The train was derailed.

Lightning struck near Simbach, according to a dispatch from Munich, killing four workmen and injuring eight.

Berlin, July 9.—(UP)—The river Elbe broke its dykes near Dessau today, according to a dispatch received here, flooding surrounding farms.

### EFFICIENCY OF NEW AIR MAIL DEBATED

NORTHWEST-CHICAGO SERVICE SCANNED BY FEDERAL OFFICERS

PILOT BLACK ADDS NEW RECORD TO HIS CREDIT YESTERDAY

St. Paul, July 9.—(UP)—While federal officials debated the efficiency of the northwest-Chicago air mail service Thursday, Pilot Nimmo Black arrived in St. Paul with a new record to his credit.

The record was established between Chicago and Milwaukee. Black flew the distance in 30 minutes, snipping five minutes from the previous fastest time. He also arrived in St. Paul 20 minutes ahead of time, but did not set a new record.

W. A. Kidder, northwest representative of the contractor, in charge of the service, came to the defense of the air mail and announced records, which, he declared, showed that in 80 per cent of the trips, mailers were given far better service than they could have obtained in any other way.

Kidder's statement was a reply to the letter sent by Arch Coleman, postmaster of Minneapolis, to Washington, in which it was charged the service was "unsatisfactory" and only 50 per cent efficient.

"The air mail service is now a delicate, living thing, subject to many difficulties, but everything is being done to establish it as dependable," Kidder said.

### REPRIEVE GIVEN JUST BEFORE EXECUTION SET

GOV. McMULLEN OF NEBRASKA SAVES LIFE OF DONALD RINGER

20 YEAR OLD BOY SENTENCED TO DEATH FOR MURDER OF AUTO SALESMAN

Lincoln, Neb., July 9.—(UP)—Just four hours before he was to have been electrocuted at the state prison here, Governor Adam McMullen early today granted Donald Ringer, 20 year old boy, Hastings, Neb., a reprieve until July 13.

The reprieve was granted at 3 A. M. after the governor and attorney general, O. S. Spillman, had conferred four hours over a telegram from Dr. Cameron of Kearney.

Ringer was sentenced to die at 7 A. M. today for the murder of Carl W. Moore, Hastings automobile salesman, October 16, 1924.

The telegram from the Kearney doctor read: "The picture of Carl Moore resembles the youth I treated the night of October 19, 1924."

J. E. Willits, Hastings, attorney for the condemned youth, hurried to Lincoln last night with the telegram from the physician and the governor called the conference at 11 P. M.

"Thank God," exclaimed the condemned youth when the word of the reprieve was given him as he sat quietly sobbing in the death cell. Ringer professed his faith in God yesterday.

The state board of pardons will meet July 13 to consider the statement of physicians and any other new evidence presented.

### T. C. HARTMAN, DULUTH, KILLED IN AUTO ACCIDENT

Duluth, July 9.—(UP)—Telford C. Hartman, 35, president of the Wieland Shoe company and a prominent Duluth business man, was killed in an automobile accident at South Superior, Wis., today.

Hartman was pinned beneath his automobile when it overturned while rounding a curve. It is believed the automobile skidded on a pavement which was slippery with rain.

The body was found wedged between the steering wheel and a bar at the top of the automobile. Death is believed to have been instantaneous.

### HOOVER SAYS HE HAS NO POWER TO REGULATE ETHER

Washington, July 9.—(UP)—Radio broadcasting in the United States is entirely without regulation today, Secretary of Commerce Hoover, making public an opinion from the justice department, asserting that he has no power whatever to regulate the ether, expressed a hope for "voluntary self regulation by the industry itself."

### DURKIN CASE SOON IN HANDS OF THE JURY

DEFENSE ATTORNEY MCGERRY TO FINISH CLOSING ARGUMENT BY NOON

THE STATE WILL THEN CLOSE, AND DURKIN'S FATE RESTS WITH JURY

Chicago, July 9.—(UP)—The case of Martin Durkin, on trial for killing Federal Agent Shanahan, was expected to be in the hands of the jury before night.

Defense Attorney Eugene McGerry intended to finish his closing argument for Durkin by noon. The state will then close, leaving Durkin's fate with the 12 men who will decide whether he shall be freed or hanged.

Both attacking the "lawlessness of the law" and lauding Shanahan's zeal, McGerry told the jurors just before the court adjourned late yesterday that Detective Sergeant Naughton was the "real murderer of Shanahan."

Shanahan was shot and killed when he attempted to arrest Durkin in a Chicago garage, October 11, 1925. Naughton, according to his own testimony, had left the garage before the shooting and had ordered Shanahan in. The defense contends that Durkin thought that the federal officer was a robber and also that Shanahan, being a federal agent, had no authority to make arrests.

Asserting that had Naughton attempted to make the arrest, as was his duty and not Shanahan's, there would have been no shooting, McGerry turned around and pointed at Naughton in the court room.

"Where are you, Naughton?" McGerry shouted. "Get down on your knees and pray for the forgiveness of God. You're the murderer of Shanahan! You're the man who ought to be on trial and not James Martin Durkin!"

Upon this tense declaration court adjourned for the day.

### SAYS HALF OF CHICAGO POLICE ARE BOOTLEGGING

Chicago, July 9.—Half of Chicago's police are in the bootlegging business, Defense Attorney Eugene McGerry charged today in a brilliant appeal to the jury to acquit Martin Durkin.

"Why should Martin Durkin, a confessed bootlegger, find it necessary to kill an officer, when he had policemen on his bootlegger payroll and could obtain immunity from arrest with ease?" McGerry asked the jury.

"I tell you," he continued, "half of Chicago's police are in this bootlegging business."

McGerry, who is chief counsel for the man accused of slaying Edwin C. Shanahan, a federal officer, brought the court into an uproar as he tossed a series of verbal bombshells into the administration of justice in Chicago.

State's attorneys leaped to their feet with violent objections, some of which were sustained and others of which were overruled.

Once Judge Harry B. Miller found it necessary to warn an assistant state's attorney against the use of profanity.

"The state would have you gentlemen of the jury believe," McGerry shouted over the uproar, "that they want to convict Martin Durkin in the interest of national law enforcement. They are lying. They want to convict Martin Durkin to impress the community. They want to convict Martin Durkin because they cannot explain why one of their own number, Assistant State's Attorney William McSwiggan, was shot to death with a party of bootleggers."

### COMMUNAL DISORDERS GROW SERIOUS IN INDIA

MOSLEM MOBS LOOT AND BURN HINDU VILLAGES

MANY PEOPLE KILLED IN PABNA WHEN POLICE FIRE ON MOB

Allahabad, British India, July 9.—(UP)—Serious communal disorders in which Moslem mobs looted and burned Hindu villages and bazaar in various localities within an area of 500 square miles around Pabna were reported today.

The disorders were reported spreading rapidly. Police and military reinforcements today were rushed to the disturbed area. Elsewhere Hindu and Moslem populations were comparatively quiet but tension was acute wherever communities of the two sects existed.

Many persons were reported to have been killed in Pabna when the police fired on a mob attempting to release prisoners which were being escorted to jail.

Drastic precautions have been taken. The potentialities of the situation were especially large now because the Moslem feast of Muharrum begins soon as do several Hindu festivals. It is significant of the feeling of the population that debates in provincial legislatures have shown party politics to be abandoned with all the legislators voting strictly according to their religion.

Hindus and Moslems have been engaged in intermittent communal warfare for years. During last April there were serious disorders which culminated in stoppage of ordinary business and virtual mob rule in many cities until the military and police took firm measures to restore normalcy. Trouble usually arises when a Hindu shows his scorn for Moslem traditions or vice versa. A frequent cause of fighting is the Hindu practice of marching past mosques behind music.

### ST. PAUL MAN HELD ON LARCENY CHARGE

Fargo, N. D., July 9.—(UP)—A deputy sheriff was due here today to return Walter Pooler, alias Walter Kelly, to St. Paul.

Pooler was married in May and has been employed at a garage here, was arrested Thursday at the request of St. Paul authorities who said he was wanted for grand larceny and forgery.

Pooler said he would return to St. Paul and waive extradition proceedings.

### 2 CLOSED COUNTRY BANKS REOPENED

St. Paul, Minn., July 9.—(UP)—The Farmers and Merchants State Bank of Rosseau, which closed Jan. 14, and the Farmers and Merchants State Bank of Hinckley, which closed November 9, 1925, were reopened today, the state banking department announced. The Rosseau bank now has \$25,000 capital and the Hinckley bank, \$10,000.

A 25 per cent dividend was paid to depositors of the Ruthton State Bank and 15 per cent to depositors of the State Bank of Hendrum.

### FRAU LUDENDORFF GRANTED DIVORCE FROM WAR MARSHAL

Berlin, July 9.—(UP)—Frau Ludendorff today was granted a divorce from the famous war time marshal, the Munich court characterizing Ludendorff as the offending party. During the trial the marshal included among his objections to his wife's conduct the fact that she smoked cigars.

### HOLD 3 ON CHARGE OF ROBBING STORE

Duluth, July 9.—(UP)—Three Duluth young men were held in jail here today accused of having been the trio who robbed a wholesale hardware store of \$1,500 in merchandise.

They were arrested Thursday night. Detectives who have been investigating the robbery recovered the merchandise secreted in a shack at the outskirts of Duluth.

### ROADS BENEFITTED

Farmers Welcome Rainfall, Claim it Valued at a Million Dollars

With a rainfall of 1.76 inches received up till noon today, Brainerd last night and this morning received the heaviest rainfall of the season.

The expression "a million dollar rainfall," can again be used in connection with the value of the rainfall. All around the country farmers are rejoicing over the advent of the heavy rainfall.

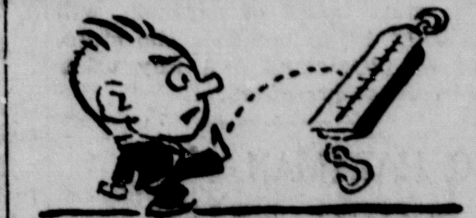

Highway men are also rejoicing because of the benefit it will do to the county roads.

"The rain that fell will work wonders to the roads," said W. M. Murphy, county highway engineer today, "as it will give the maintenance men an opportunity to drag the roads and put the roads back into shape again from the three day holiday period, during which time the roads were considerably cut up due to the excessive travel. The county tractor outfit is in Cross Lake working on both township and county maintained roads. This rain will be exceptional good as the soil there is light and sandy."

## FOURTH DAY OF N. Y. SUBWAY STRIKE DAWNS

FINDS STRIKERS SEEKING TO AUGMENT THEIR RANKS

**FIRST ACCIDENT RECORDED IN LOWER MANHATTAN, 10 CAR TRAIN DERAILED**

New York, July 9.—(UP)—Plans for a strike meeting of motive employees of the Interborough Rapid Transit Company, involving 246 sub station workers and the first accident of the transit strike marked the fourth day of the New York subway strike.

The accident occurred at Bowling Green station in lower Manhattan, when an empty 10-car subway train was derailed, causing a short circuit and fire which spread to one car of a second train carrying 10 passengers, who were taken out of the darkened tube by an emergency exit. No injuries were reported, although two women became hysterical.

Manned by a non-union motorman two cars of the 10-car train left the tracks at 12:20 A. M. today. The cars ripped out 100 feet of the charged third rail, starting the fire and trucks smashed through a concrete partition, dividing the tracks.

There is a sharp curve at the point where the accident occurred and first reports attributed the derailment to taking the curve with the brakes set.

Subway traffic on the line was halted for an hour while the cars were put back on the track. Questioned by Major Phillips Matthews, executive officer of the transit commission, the non-union motorman of the train said that his name was E. Kelley, and later admitted that he had qualified as a motorman only yesterday. He was questioned by police, but later liberated.

New confusion was added to the strike today when a group of night shift motive men employed in power stations met at Unity Hall and voted to strike at 1 A. M. tomorrow.

The day shifts of the power men are to meet tonight to take a strike vote and James F. Walsh, head of the motive local, predicted that they will also strike. Two hundred and forty-six men comprise the two shifts forming the local.

If the strike threat is made effective, leaders maintained that it would result in a tie-up of the I. R. T. subway and "L" lines, the surface lines of the city and the lines of the Brooklyn-Manhattan Transit Company entering Manhattan.

Company officials said that not all power house men were involved in the group threatening to strike.

The company said the situation would be met and service maintained even if the threat were carried out. Power can be obtained from the New York Edison Company and the New York Central railroad, it was said, although the Edison would be able to furnish only 10 per cent of the required power, it was understood.

Indianapolis, July 9.—The first definite step toward settlement of the street car men's strike by arbitration was taken today.

At a series of conferences behind closed doors business leaders, manufacturers and a number of labor leaders considered the strike deadlock. Operation of street cars continued today on practically a normal schedule.

The firemen were called out last Friday morning of last week to subdue a blaze at Lochmond, the cottage on east Cleveland boulevard owned by W. C. Mannis of Brainerd. No one has occupied the cottage for some time so the fire is something of a mystery. The fire had apparently started in a bunch of rubbish at the stair landing leading to the attic. When discovered the flames had eaten a hole through the roof. Prompt work on the part of the firemen subdued the blaze with but slight damage to the property.—Walker Pilot.

## BRAINERD HAD 1.76 IN. RAINFALL

Was Greatest Rainfall For Any One Day so Far This Season

### ROADS BENEFITTED

Farmers Welcome Rainfall, Claim it Valued at a Million Dollars

With a rainfall of 1.76 inches received up till noon today, Brainerd last night and this morning received the heaviest rainfall of the season.

The expression "a million dollar rainfall," can again be used in connection with the value of the rainfall. All around the country farmers are rejoicing over the advent of the heavy rainfall.

Highway men are also rejoicing because of the benefit it will do the county roads.

"The rain that fell will work wonders to the roads," said W. M. Murphy, county highway engineer today. "as it will give the maintenance men an opportunity to drag the roads and put the roads back into shape again from the three day holiday period, during which time the roads were considerably cut up due to the excessive travel. The county tractor outfit is in Cross Lake working on both township and county maintained roads. This rain will be exceptional good as the soil there is light and sandy."

## FOURTH DAY OF N. Y. SUBWAY STRIKE DAWNS

FINDS STRIKEES SEEKING TO AUGMENT THEIR RANKS

**FIRST ACCIDENT RECORDED IN LOWER MANHATTAN, 10 CAR TRAIN DERAILED**

New York, July 9.—(UP)—Plans for a strike meeting of motive employees of the Interborough Rapid Transit Company, involving 246 sub station workers and the first accident of the transit strike marked the fourth day of the New York subway strike.

The accident occurred at Bowling Green station in lower Manhattan, when an empty 10-car subway train was derailed, causing a short circuit and fire which spread to one car of a second train carrying 10 passengers, who were taken out of the darkened tube by an emergency exit. No injuries were reported, although two women became hysterical.

Manned by a non-union motorman two cars of the 10-car train left the tracks at 12:20 A. M. today. The cars ripped out 100 feet of the charged third rail, starting the fire and trucks smashed through a concrete partition, dividing the tracks.

There is a sharp curve at the point where the accident occurred and first reports attributed the derailment to taking the curve with the brakes set.

Subway traffic on the line was halted for an hour while the cars were put back on the track. Questioned by Major Phillips Matthews, executive officer of the transit commission, the non-union motorman of the train said that his name was E. Kelley, and later admitted that he had qualified as a motorman only yesterday. He was questioned by police, but later liberated.

New confusion was added to the strike today when a group of night shift motive men employed in power stations met at Unity Hall and voted to strike at 1 A. M. tomorrow.

The day shifts of the power men are to meet tonight to take a strike vote and James F. Walsh, head of the motive local, predicted that they will also strike. Two hundred and forty-six men comprise the two shifts forming the local.

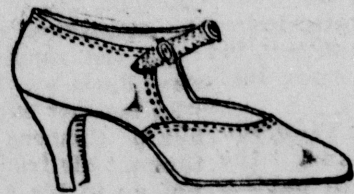

If the strike threat is made effective, leaders maintained that it would result in a tie-up of the I. R. T. subway and "L" lines, the surface lines of the city and the lines of the Brooklyn-Manhattan Transit Company entering Manhattan.

Company officials said that not all power house men were involved in the group threatening to strike.

The company said the situation would be met and service maintained even if the threat were carried out. Power can be obtained from the New York Edison Company and the New York Central railroad, it was said, although the Edison would be able to furnish only 10 per cent of the required power, it was understood.

Indianapolis, July 9.—The first definite step toward settlement of the street car men's strike by arbitration was taken today.

At a series of conferences behind closed doors business leaders, manufacturers and a number of labor leaders considered the strike deadlock. Operation of street cars continued today on practically a normal schedule.

The final date for the tennis court dance has been set for Friday evening, July 16, when the Brainerd Municipal band, which has postponed its Wednesday night concert to Friday on account of the absence of Director Miller, will furnish the music for the dancing. Proceeds from the dance will be used to defray the expenses of recent improvements made at the courts.

Wednesday night a game was played between Clifford Welsh, Vincent Kampmann and Calvin and George Orth the sets going 4-6, 6-3, 8-6, in favor of the former. This was the first round of the first elimination group and Saturday morning at 7:30 o'clock a Junior tournament will be held in which all boys and girls under 16 years of age are eligible to compete.

## Family Newspaper

A unique newspaper is printed in New York City, with correspondents all over the world and a circulation confined to the members of a single family.

It was established by a downtown broker, who is one of a very large and widely scattered family, as a clearing house for news from his many relatives. Each one is pledged to send in, at stated intervals, all items of interest for the information of the others. All the letters are printed, and thereby each is kept posted about the affairs of the others.

The broker's private secretary has the job of editor of this odd journal and rejoices that the family name is not Smith.

## Hope to Find Treasure

The treasures of lost ships buried under the sands of the Yellowstone and Missouri rivers are being sought by Elmore E. Wenner, a prospector, who has spent some 25 years gathering information as to their location and possible recovery. He believes that there are still large quantities of the cargoes of priceless pelts, gold, silver, etc., in the skeletons of these treasure ships, the value of which government reports indicate to approximate \$50,000,000. His investigations have disclosed that altogether some 275 steamers were sunk in the Missouri and Yellowstone rivers between 1819 and 1898.—Pathfinder Magazine.

## China Has Largest Army

China is said to have the largest army in the world, its organized armed force numbering, early this year, about 7,000,000 men, as compared with only 212,000 in 1914. Denmark, on the other hand, has probably the smallest with only 10,000 men. The Russian army at this time is a matter of considerable conjecture, estimates placing it at from 600,000 to 1,300,000. The United States soldiery numbers 138,000 on last estimates and that of England and France about 700,000 each, with those of other countries ranking lower.

## Little Visits Around the Rural Section

Written especially for the Dispatch  
by W. H. Triplett, travelling editor  
for this paper and The Farmer of St.  
Paul.

The weather was so hot and sultry last night that we postponed writing The Little Visits until morning and headed our car for the lake and took a swim. This morning as we write, the rain is pattering on the roof. We all welcome the rain except, perhaps, those who have hay cut, and even at that the rain will do more good than damage, as the hay will soon dry.

Andrew Larson was the first one called on Thursday morning. He has lived on his place for the last 22 years. His son-in-law, Fred Tracy, has rented the place and farmed it the last two years. He is milking 13 cows of Red Poll breed and has a pure bred sire at the head of the herd. Mr. Tracy is one of our ex-service men, spending 20 months overseas with the Third Cavalry. Mr. Larson's brother, John and family, from Florida, are visiting there this week, also Frank Larson from St. Paul. Mr. Tracy and Mr. John Larson and boys were getting ready to go fishing when we left.

Lawrence McCulla has lived in Crow Wing county practically all his life and says he has never seen a crop failure yet. He is breeding the Red Poll cattle and has five registered cows at the present time. He would like very much to have a silo and will have soon. Mr. McCulla is president of Farmers Cooperative Shipping association and vice president of the Farmers Cooperative Creamery. He says they make 90 per cent Land O'Lakes butter, which shows that the farmers in the community are taking good care of their cream. In time they expect to be making 100 per cent Land O'Lakes butter.

Joe Vanek is one of our bachelors, who has farmed the home place for over 20 years. His mother is keeping house for him. He tried alfalfa but failed to inoculate, consequently he had a poor yield. Mr. Vanek has a bean holler which keeps him busy in the fall besides bringing in an additional income.

Klos Schon has 80 acres and a good set of buildings, including a silo and Mrs. Schon says they wouldn't farm without it, nor would any one else if they once used one. His son Ainar sailed for Sweden, June 16.

## SEEK COMMISSION TO DETERMINE SANITY OF ALLEGED SLAYER

Minneapolis, July 9.—(UP)—A request was to be made in court here today for the appointment of a commission to determine the mental condition of Mrs. Jessie M. Kelly, held on a charge of murdering her six year old daughter by administering chloroform.

The sanity commission was to be asked of Judge Horace D. Dickinson by P. L. Soethier, attorney for Mrs. Kelly, who declared he believed Mrs. Kelly to be mentally unbalanced.

Pending action on the petition the state will delay asking hearing and arraignment for Mrs. Kelly. If she is adjudged insane she will be committed to an insane asylum without trial as provided by Minnesota law.

## FINANCIAL DICTATORSHIP FOR FRANCE

By A. L. BRADFORD  
United Press Staff Correspondent  
Paris, July 9.—A measure to empower the French cabinet with what

on the same boat the writer went overseas on in 1917, the Aquitania. However we hope he had a more enjoyable trip than we did.

John Graber and two brothers Arthur and Joe, are farming a half section and are getting along first rate. Their mother is keeping house for them. Mrs. Graber remarked yesterday during our visit that when she came to Brainerd 46 years ago there were seven houses, and two stores, a butcher shop and grocery. And where the farm is, there was nothing but woods inhabited by Indians. Today it is practically all under cultivation which shows that some mighty hard work has been put forth.

John Sagli has farmed 80 acres for the last 14 years and his major enterprise is dairying.

John Holgren formerly worked in the shops at Brainerd, but becoming tired of shop work, he bought 40 acres in 1905 and has farmed same since that time. He says he likes farm life fine as he is his own boss and can take a day off when he wants it. He has three acres of alfalfa that will make a fair yield in spite of the dry spring. Six cows of Red Poll breed are the money makers on the place. The writer helped pick strawberries for a few minutes after which we enjoyed a dish of them with cream.

Ray Heller worked in the foundry for 20 years, but due to ill health was forced to quit, and was advised to get in the country where he could regain his health. He has an 80 acre farm, and just now is digging the basement for a new house. Mr. Heller plans on breeding for a Guernsey herd. Yesterday we found him mowing alfalfa hay.

Mr. C. W. Cunningham is one of our railroad engineers, working out of Duluth. He rents the land to Mr. Hauser and Mr. Calkin. Mrs. Cunningham and children, Donna, Mardella, James and Kathleen live on the farm in the summer and at Duluth in the winter. The children are always eager to get out in the country in the summer. Mrs. Cunningham is the proud owner of four Guernsey cows that keep them supplied with milk and cream.

W. H. TRIPLETT.

would amount to a financial dictatorship was ready today for introduction into the chamber of deputies, upon the deputies' expression of confidence in the Briand government.

The confidence vote was expected tonight, whereupon the financial project would be introduced immediately. The project, the United Press learned, is extremely short and its principal provision would authorize the government to take by decree without reference to parliament all measures necessary to assure equilibrium of the budget and establishment of the currency.

This project has been described as likely eventually to make Finance Minister Caillaux the dictator of France.

## A Dollar Dinner for Four A Dinner in Which High Food Value and Low Prices Share Honors

THE dinner outlined is particularly good for its balance. Protein, mineral salts, carbohydrates, fats, all are included in a meal that offers nothing in the least indigestible. The vitamin content is high, especially in peas. It should be remembered that peas contain all the mineral properties of other vegetables and carbohydrates as well.

A can of spinach, which is more than sufficient for four people, can be bought at any time for nineteen cents, and for less at special sales. Peas sell at two for twenty-five cents or thirteen cents each. Fruit salad, the most expensive item on the list, is forty-seven cents a can, but since it combines salad and dessert and needs no further preparation at all, it is worth that much.

The salad is supplemented by a few cookies, oatmeal crackers, ginger wafers, or other cookies costing eight cents a box, to be reckoned for the meal at half a box at four cents. With six cents allowed for the can of evaporated milk used to cream the spinach, the total is eighty-nine cents. This leaves a margin of eleven cents for the egg, hard-boiled and grated over the spinach, the few leaves of lettuce used in the fruit salad, and the usual four cents for coffee. A little of the milk may be used for coffee, although the custom of omitting milk in coffee at dinner is now so wide-spread that on many tables it does not even appear.

## "Sweet Daddies" Great Comedy at Lyceum

Alfred A. Santell, the brilliant young director who has given the screen "Classified" and "Bluebeard's Seven Wives," has made another winner. It is "Sweet Daddies," which is now showing at the Lyceum. The new production is one glorious laugh from beginning to end, with thrills and love interest and a few other things thrown in for good measure.

## HOT WEATHER CAUSES SHOOTING

Scranton, Pa., July 9.—(UP)—Going on a rampage here today George Mordella shot and killed his wife and wounded two other women, according to police.

A peculiar feature of the affair came in the shooting of John Meringo who resides near the house in which Mordella fired at the woman. Seeing the police approach Meringo thought they were after him and started to shoot. He was later shot in the foot by a bluecoat.

Toronto, Ont., July 9.—(UP)—Temporarily deranged by the heat, Patrick Fogarty today shot to death his wife, four children, ranging from 5 to 12 years of age, and then killed himself.

## TENNIS COURT DANCE FRIDAY

Brainerd Municipal Band to Furnish  
Music For The  
Occasion

### PROCEEDS TO AID COURTS

Wednesday Night First Round of  
Elimination Group Played  
at Park

The final date for the tennis court dance has been set for Friday evening, July 16, when the Brainerd Municipal band, which has postponed its Wednesday night concert to Friday on account of the absence of Director Miller, will furnish the music for the dancing. Proceeds from the dance will be used to defray the expenses of recent improvements made at the courts.

Wednesday night a game was played between Clifford Welsh, Vincent Kampmann and Calvin and George Orth the sets going 4-6, 6-3, 8-6, in favor of the former. This was the first round of the first elimination group and Saturday morning at 7:30 o'clock a Junior tournament will be held in which all boys and girls under 16 years of age are eligible to compete.

### Family Newspaper

A unique newspaper is printed in New York city, with correspondents all over the world and a circulation confined to the members of a single family.

It was established by a downtown broker, who is one of a very large and widely scattered family, as a clearing house for news from his many relatives. Each one is pledged to send in, at stated intervals, all items of interest for the information of the others. All the letters are printed, and thereby each is kept posted about the affairs of the others.

The broker's private secretary has the job of editor of this odd journal and rejoices that the family name is not Smith.

### Hope to Find Treasure

The treasures of lost ships buried under the sands of the Yellowstone and Missouri rivers are being sought by Elmore E. Wenner, a prospector, who has spent some 25 years gathering information as to their location and possible recovery. He believes that there are still large quantities of the cargoes of priceless pelts, gold, silver, etc., in the skeletons of these treasure ships, the value of which government reports indicate to approximate \$50,000,000. His investigations have disclosed that altogether some 275 steamers were sunk in the Missouri and Yellowstone rivers between 1819 and 1898.—Pathfinder Magazine.

### China Has Largest Army

China is said to have the largest army in the world, its organized armed force numbering, early this year, about 7,000,000 men, as compared with only 212,000 in 1914. Denmark, on the other hand, has probably the smallest with only 10,000 men. The Russian army at this time is a matter of considerable conjecture, estimates placing it at from 600,000 to 1,300,000. The United States soldierly numbers 138,000 on last estimates and that of England and France about 700,000 each, with those of other countries ranking lower.

## Little Visits

Around the Rural Section

Written especially for the Dispatch  
by W. H. Triplett, travelling editor  
for this paper and The Farmer of St.  
Paul.

W. H. Triplett

The weather was so hot and sultry last night that we postponed writing the Little Visits until morning and headed our car for the lake and took a swim. This morning as we write, the rain is pattering on the roof. We all welcome the rain except, perhaps, those who have hay cut, and even at that the rain will do more good than damage, as the hay will soon dry.

Andrew Larson was the first one called on Thursday morning. He has lived on his place for the last 22 years. His son-in-law, Fred Tracy, has rented the place and farmed it the last two years. He is milking 13 cows of Red Poll breed and has a pure bred sire at the head of the herd. Mr. Tracy is one of our ex-service men, spending 20 months overseas with the Third Cavalry. Mr. Larson's brother, John and family, from Florida, are visiting there this week, also Frank Larson from St. Paul. Mr. Tracy and Mr. John Larson and boys were getting ready to go fishing when we left.

Lawrence McCulla has lived in Crow Wing county practically all his life and says he has never seen a crop failure yet. He is breeding the Red Poll cattle and has five registered cows at the present time. He would like very much to have a silo and will have soon. Mr. McCulla is president of Farmers Cooperative Shipping association and vice president of the Farmers Cooperative Creamery. He says they make 90 per cent Land O'Lakes butter, which shows that the farmers in the community are taking good care of their cream. In time they expect to be making 100 per cent Land O'Lakes butter.

Joe Vanek is one of our bachelors, who has farmed the home place for over 20 years. His mother is keeping house for him. He tried alfalfa but failed to inoculate, consequently he had a poor yield. Mr. Vanek has a bean huller which keeps him busy in the fall besides bringing in an additional income.

Klos Schon has 80 acres and a good set of buildings, including a silo and Mrs. Schon says they wouldn't farm without it, nor would any one else if they once used one. His son Ainar sailed for Sweden, June 16.

## SEEK COMMISSION TO DETERMINE SANITY OF ALLEGED SLAYER

Minneapolis, July 9.—(UP)—A request was to be made in court here today for the appointment of a commission to determine the mental condition of Mrs. Jessie M. Kelly, held on a charge of murdering her six year old daughter by administering chloroform.

The sanity commission was to be asked of Judge Horace D. Dickinson by P. L. Soether, attorney for Mrs. Kelly, who declared he believed Mrs. Kelly to be mentally unbalanced. Pending action on the petition the state will delay asking hearing and arraignment for Mrs. Kelly. If she is adjudged insane she will be committed to an insane asylum without trial as provided by Minnesota law.

## FINANCIAL DICTATORSHIP FOR FRANCE

By A. L. BRADFORD

United Press Staff Correspondent  
Paris, July 9.—A measure to empower the French cabinet with what

on the same boat the writer went overseas on in 1917, the Aquitania. However we hope he had a more enjoyable trip than we did.

John Graber and two brothers Arthur and Joe, are farming a half section and are getting along first rate. Their mother is keeping house for them. Mrs. Graber remarked yesterday during our visit that when she came to Brainerd 46 years ago there were seven houses, and two stores, a butcher shop and grocery. And where the farm is, there was nothing but woods inhabited by Indians. Today it is practically all under cultivation which shows that some mighty hard work has been put forth.

John Sagli has farmed 80 acres for the last 14 years and his major enterprise is dairying.

John Holgren formerly worked in the shops at Brainerd, but becoming tired of shop work, he bought 40 acres in 1905 and has farmed same since that time. He says he likes farm life fine as he is his own boss and can take a day off when he wants it. He has three acres of alfalfa that will make a fair yield in spite of the dry spring. Six cows of Red Poll breed are the money makers on the place. The writer helped pick strawberries for a few minutes after which we enjoyed a dish of them with cream.

Ray Heller worked in the foundry for 20 years, but due to ill health was forced to quit, and was advised to get in the country where he could regain his health. He has an 80 acre farm, and just now is digging the basement for a new house. Mr. Heller plans on breeding for a Guernsey herd. Yesterday we found him mowing alfalfa hay.

Mr. C. W. Cunningham is one of our railroad engineers, working out of Duluth. He rents the land to Mr. Hauser and Mr. Calkin. Mrs. Cunningham and children, Donna, Marcella, James and Kathleen live on the farm in the summer and at Duluth in the winter. The children are always eager to get out in the country in the summer. Mrs. Cunningham is the proud owner of four Guernsey cows that keep them supplied with milk and cream.

W. H. TRIPLETT.

would amount to a financial dictatorship was ready today for introduction into the chamber of deputies, upon the deputies' expression of confidence in the Briand government.

The confidence vote was expected tonight, whereupon the financial project would be introduced immediately. The project, the United Press learned, is extremely short and its principal provision would authorize the government to take by decree without reference to parliament all measures necessary to assure equilibrium of the budget and establishment of the currency.

This project has been described as likely eventually to make Finance Minister Caillaux the dictator of France.

### Share Honors

THE dinner outlined is particularly good for its balance. Protein, mineral salts, carbohydrates, fats, all are included in a meal that offers nothing in the least indigestible. The vitamin content is high, especially in peas. It should be remembered that peas contain all the mineral properties of other vegetables and carbohydrates as well.

A can of spinach, which is more than sufficient for four people, can be bought at any time for nineteen cents, and for less at special sales. Peas sell at two for twenty-five cents or thirteen cents each. Fruit salad, the most expensive item on the list, is forty-seven cents a can, but since it combines salad and dessert and needs no further preparation at all, it is worth that much.

## HOT WEATHER CAUSES SHOOTING

Scranton, Pa., July 9.—(UP)—Going on a rampage here today George Mordeila shot and killed his wife and wounded two other women, according to police.

A peculiar feature of the affair came in the shooting of John Meringo who resides near the house in which Mordeila fired at the woman. Seeing the police approach Meringo thought they were after him and started to shoot. He was later shot in the foot by a bluecoat.

Toronto, Ont., July 9.—(UP)—Temporarily deranged by the heat, Patrick Fogarty today shot to death his wife, four children, ranging from 5 to 12 years of age, and then killed himself.

## WHY AMERICA PROSPERS

SECRETARY OF THE TREASURY ANDREW MELLON, in a recent radio address, summarized the reasons why America prospers. Mass production, inventive genius, elimination of class hatred, and recognition by labor and capital that only a prosperous industry can pay high wages, are among the chief factors contributing to the high level of industrial development and prosperity among all classes in our country.

"Our wealth has come from two sources," said Mr. Mellon. "It is due, in part, to our great natural resources and in larger measure to the efficiency of our industrial organization. That organization, by utilizing labor-saving devices and other inventions and discoveries, has succeeded in keeping wages and profits at a high level, and diffusing prosperity among a larger number of people than has ever known it before."

"As a result, America is now the richest nation in the world. We have a greater income per capita than any other nation. Our standard of living is higher, and we are now the leading industrial nation and the world's greatest creditor."

"It is organized industry that has brought about the present unprecedented development in this country. It has made possible a uniform, and, therefore, a cheaper production of commodities with distribution and consumption of goods over a wide area, so that in America we now consider as necessities many things which were luxuries to the preceding generation."

"Both labor and capital are beginning to realize that they have a common interest in building up the great industries which are sources of wealth for all, and that in America, with the opportunities which it offers and the constant transition from poverty to wealth, there is no place for class antagonisms or class warfare."

"We have found in this country, that by investing heavily in labor-saving machinery, we can increase the productive capacity per capita of labor, and also eliminate waste, which is such an important factor in the attainment of national prosperity. In this way, we can pay high wages and still reduce costs, so that the finished products are within the reach of the average man."

## SUN'S RAYS ARE HEALTHY

THE other day we had something to say about Winthrop Chamberlain's remarks about running hatless. He thought one's eye sight would be strained by the sun, and that there was no real benefit to be obtained in discarding headgear.

The department of health of Springfield, Ill., as reported by the Associated Press, says that "now is the time for storing up sunshine against the cloudy days of winter."

The health bulletin further recommends daily exposure to the direct rays of the sun, together with the eating of green, leafy vegetables, all of which will provide a sunshine savings deposit for the off season.

Green vegetables contain much concentrated sunshine, and there need be no fear of bodily exposure to the sun. The next three months will constitute the most healthful period of the year. Despite sunstrokes, oppressive heat and easy fatigue, the contagious diseases will be at their lowest ebb.

Out of door life and the freedom of the vacation spirit are probably important factors in the general state of well being.

The lake region here is the best place to store up this sunshine savings deposit for the coming winter months. Swim in our lakes, play on our sandy beaches and store up a wealth of exuberant health.

## ONE THING BALANCES ANOTHER

WE have no potato bugs this year, but we have some green bugs. One thing in nature seems to balance the other. Potatoes are commanding a high price and prices will continue high after marketing the crop now in the ground.

Farmers have commented on the fact that potato bugs are scarce, and attribute the reduction of the pest to the weather conditions. Few bugs have been seen and but little paris green is being bought from hardware and drug stores. Many farmers believe lack of potato bugs will largely increase the potato yield.

With the potato bugs a minus quantity in the county, we find a new visitor in the shape of a green bug or plant louse. This green bug is very destructive and where he has secured a foothold, about the only thing to do, as recommended by County Agricultural Agent Roth, is to plow under the present crop and plant something else.

## CONSTRUCTIVE JOURNALISM

No feature of newspaper work is recognized as more important than the constructive force of journalism in promoting goodwill and cooperation among all classes and all sections of our country, says a review in the Industrial News Bureau. Harmony and prosperity and our financial and industrial welfare depends upon the understanding of one class or section of another.

It is a well established fact of history, that newspapers have enormous latent constructive or destructive powers—they can make a war or spoil a peace. Their influence in either direction is tremendous—possibly greater than many editors are willing to admit.

Newspapers are an institution of democracy, but their power and influence can be no greater than the thought prompting and supporting their editorial policy.

## HIS RECORD WON RENOMINATION

THE Milaca Tribune states that Governor Christianson ran for renomination on his record, and the way the voters approved his business system in the conduct of the state's business was certainly gratifying. The people are demanding something of that kind to stop public expenditures, and we are glad to see it turned out the way it did from another standpoint, namely that it is an unpleasant job to follow Christianson's stand and naturally causes unpleasant situations as well as some animosities, but when the people are willing to back up such an officeholder, it shows that they appreciate such efforts, which are so badly needed in governmental affairs.

THE Brainerd Ladies band played at the Verndale Fourth of July celebration and as mentioned by the Verndale Sun, "all attention was paid to them in their snappy suits and fine music."

Mrs. Charles Dahle has returned from Wadena where she has been visiting for some time.

O. B. Hamlin returned yesterday from St. Joseph's hospital, St. Paul, where he underwent an operation.

W. H. Cleary one of the members of the new wholesale grocery firm was a guest in the city last evening.

Mr. and Mrs. A. Funk returned this morning from Albany where they have been visiting for some time.

M. J. Reilly and family are at Gull Lake for a few days outing.

F. S. Parker and E. P. Eagen are in from Long Lake on business.

Miss Eloise Smith returned yesterday from a visit at Canton, Ill.

Mrs. Nellie B. Horn and children left today for Boone, Ia., for an extended visit.

Charles McKay has returned from Williston, N. D., where he has been employed for about a year. He will remain in the city for the present.

Mrs. O. C. Wright and son Warner arrived in the city this noon from Hamline for an extended visit with Mr. and Mrs. C. P. Wright of this city.

## Cosmopolitan South Africa

South Africa is among the most cosmopolitan places in the world, according to L. Kee, writing in the Sydney Bulletin.

"I saw a suitcase in the window of a shop in Durban and decided to buy it," says Kee. "A pleasant Hindu took my order and requisitioned a negro boy to get the article from the window. A girl (niece) unaccountable because only her eyes were visible; but they had a suspicious blue Chinese tint in their whites) typed the sale note, and an aged white man took my cash. Finally a Zulu, dressed like Beelzebub, rickshawed me and the case to the hotel. Each addressed the other in a different lingo."

## Land in Extreme North?

The theory that land exists between Alaska and the pole has persisted for hundreds of years, and Dr. R. A. Harris, an American geographer, won considerable notice a few years ago by offering Arctic tide tables as proof of the existence of a large land mass north of Alaska, says Bart M. McConnell, in the Independent. There is also the fact that geese and ducks have been observed flying directly northward from Point Barrow during the early summer, and returning with their young a few months later from the same point of the compass. These are a few of the interesting theories in favor of the existence of land.

## Music Affects Muscles

Cheerful music actually increased the lifting power of the muscles in recent experiments, while slow and melancholy melodies exerted the reverse influence. This is a new form of an old idea. Seamen used to work by song, while Gladstone cured neuralgia by listening to quieting strains.

## Cajun Justices Not Ruled by Blackstone

The old cajun justices of southwestern Louisiana were important personages. The trials, which were held at the justices' homes, were made all-day affairs, the neighbors driving in from miles around. Evidence was taken interminably, although the verdict was usually based upon the justice's point of view rather than upon any mere point of law.

For example, I know of a planter who brought suit against one of his tenants for the recovery of a calf. His ownership being proved, he was awarded possession of the animal. Next he was ordered to pay the costs of the court.

"But," objected the planter, "I have won my case. The loser should pay."  
"True," agreed the justice. "But then, m'sieu, you have the money, whereas the other has not."

However, it was in domestic matters that these "prairie judges" really shone. One of them declared proudly that he could marry and divorce quicker than any other man in the state.

"It is quite simple," said he. "Goble wishes to tie up with some girl. That is all right. He gives me \$5 and I write down his marriage in my book."

"After a while he don't like it? He wants to be free? That is all right again. For \$10 more I tear out the page."—Nevill Henshaw in Adventure Magazine.

## Kruger's Idea Was to Make Camp on Ocean

The sight of the trackless ocean and a ship punching the waves, always brings back to this writer the authentic story of Paul Kruger, the president of the Transvaal republic, and his attempt to teach a group of Hottentot children the story of America's discovery. Pierre Van Passen writes, in the Atlanta Constitution. His representation of a ship conjured up a mental picture of a floating covered wagon. Oom Paul's imagination may have been magnificent, but it failed him miserably on the occasion when he was traveling from Capetown to Southampton in the pathetic mission of seeking aid for his country at the chancelleries of Europe. When night descended Oom Paul, who in his youth had slain an African lion with his bare hands, became nervous and agitated. Finally he could hold out no longer. Briskly he climbed the ladder to the captain's bridge. The officer saluted. "Tell me," said the Boer president, "where do you plan to unhitch tonight. It's getting dark, you know, and I think we had better make camp." When reassured by the skipper he went back to his cabin, read the story of St. Paul's shipwreck, drank a stein of beer and fell asleep.

## The Dirty Work

The helplessness of mere man in the presence of ordinary domestic tasks was illustrated in the case of the old miner, who explained that he had once tried to improve his cooking by studying a book of recipes. "It was no use," he said sadly, "because every one of them receipts starts off with 'take a clean dish.'"

He was kin to one of the sons of a Mrs. MacLeod. She was called away from home one day just after dinner. As she was leaving she said to one of the boys:

"One of you must wash the dishes and the other wipe them and put them away, so that everything will be tidy when I get back."

"All right, mother," said Jack, "but Will's got to wipe them. I'm willing to wash, but wiping is such greasy work."

# Patterns of progress

An American home—its bathtub, breakfast foods, furnace—set down in the heart of Europe would be unmistakably an American home. An American man, the cut of his coat, the tie of his tie, the comb of his hair—walking the streets of Europe is in all his obvious tastes an American.

Advertisements stamp American homes and owners of homes with a kind of national pattern. They create desire for the same kind of things; make particular people know and want the most advanced of things. Homes—what to put in homes. People—how to dress, nourish, entertain the people. ## WHY AMERICA PROSPERS

SECRETARY OF THE TREASURY ANDREW MELLON, in a recent radio address, summarized the reasons why America prospers. Mass production, inventive genius, elimination of class hatred, and recognition by labor and capital that only a prosperous industry can pay high wages, are among the chief factors contributing to the high level of industrial development and prosperity among all classes in our country.

"Our wealth has come from two sources," said Mr. Mellon. "It is due, in part, to our great natural resources and in larger measure to the efficiency of our industrial organization. That organization, by utilizing labor-saving devices and other inventions and discoveries, has succeeded in keeping wages and profits at a high level, and diffusing prosperity among a larger number of people than has ever known it before."

"As a result, America is now the richest nation in the world. We have a greater income per capita than any other nation. Our standard of living is higher, and we are now the leading industrial nation and the world's greatest creditor."

"It is organized industry that has brought about the present unprecedented development in this country. It has made possible a uniform, and, therefore, a cheaper production of commodities with distribution and consumption of goods over a wide area, so that in America we now consider as necessities many things which were luxuries to the preceding generation."

"Both labor and capital are beginning to realize that they have a common interest in building up the great industries which are sources of wealth for all, and that in America, with the opportunities which it offers and the constant transition from poverty to wealth, there is no place for class antagonisms or class warfare."

"We have found in this country, that by investing heavily in labor-saving machinery, we can increase the productive capacity per capita of labor, and also eliminate waste, which is such an important factor in the attainment of national prosperity. In this way, we can pay high wages and still reduce costs, so that the finished products are within the reach of the average man."

## SUN'S RAYS ARE HEALTHY

THE other day we had something to say about Winthrop Chamberlain's remarks about running hatless. He thought one's eye sight would be strained by the sun, and that there was no real benefit to be obtained in discarding headgear.

The department of health of Springfield, Ill., as reported by the Associated Press, says that "now is the time for storing up sunshine against the cloudy days of winter."

The health bulletin further recommends daily exposure to the direct rays of the sun, together with the eating of green, leafy vegetables, all of which will provide a sunshine savings deposit for the off season.

Green vegetables contain much concentrated sunshine, and there need be no fear of bodily exposure to the sun. The next three months will constitute the most healthful period of the year. Despite sunstrokes, oppressive heat and easy fatigue, the contagious diseases will be at their lowest ebb.

Out of door life and the freedom of the vacation spirit are probably important factors in the general state of well being.

The lake region here is the best place to store up this sunshine savings deposit for the coming winter months. Swim in our lakes, play on our sandy beaches and store up a wealth of exuberant health.

## ONE THING BALANCES ANOTHER

WE have no potato bugs this year, but we have some green bugs. One thing in nature seems to balance the other. Potatoes are commanding a high price and prices will continue high after marketing the crop now in the ground.

Farmers have commented on the fact that potato bugs are scarce, and attribute the reduction of the pest to the weather conditions. Few bugs have been seen and but little paris green is being bought from hardware and drug stores. Many farmers believe lack of potato bugs will largely increase the potato yield.

With the potato bugs a minus quantity in the county, we find a new visitor in the shape of a green bug or plant louse. This green bug is very destructive and where he has secured a foothold, about the only thing to do, as recommended by County Agricultural Agent Roth, is to plow under the present crop and plant something else.

## CONSTRUCTIVE JOURNALISM

No feature of newspaper work is recognized as more important than the constructive force of journalism in promoting goodwill and cooperation among all classes and all sections of our country, says a review in the Industrial News Bureau. Harmony and prosperity and our financial and industrial welfare depends upon the understanding of one class or section of another.

It is a well established fact of history, that newspapers have enormous latent constructive or destructive powers—they can make a war or spoil a peace. Their influence in either direction is tremendous—possibly greater than many editors are willing to admit.

Newspapers are an institution of democracy, but their power and influence can be no greater than the thought prompting and supporting their editorial policy.

## HIS RECORD WON RENOMINATION

THE Milaca Tribune states that Governor Christianson ran for renomination on his record, and the way the voters approved his business system in the conduct of the state's business was certainly gratifying. The people are demanding something of that kind to stop public expenditures, and we are glad to see it turned out the way it did from another standpoint, namely that it is an unpleasant job to follow Christianson's stand and naturally causes unpleasant situations as well as some animosities, but when the people are willing to back up such an officeholder, it shows that they appreciate such efforts, which are so badly needed in governmental affairs.

THE Brainerd Ladies band played at the Verndale Fourth of July celebration and as mentioned by the Verndale Sun, "all attention was paid to them in their snappy suits and fine music."

Mrs. Charles Dahle has returned from Wadena where she has been visiting for some time.

O. B. Hamlin returned yesterday from St. Joseph's hospital, St. Paul, where he underwent an operation.

W. H. Cleary one of the members of the new wholesale grocery firm was a guest in the city last evening. Mr. and Mrs. A. Funk returned this morning from Albany where they have been visiting for some time.

M. J. Reilly and family are at Gull Lake for a few days outing. F. S. Parker and E. P. Eagen are in from Long Lake on business.

Miss Eloise Smith returned yesterday from a visit at Canton, Ill.

Mrs. Nellie B. Horn and children left today for Boone, Ia., for an extended visit.

Charles McKay has returned from Williston, N. D., where he has been employed for about a year. He will remain in the city for the present.

Mrs. O. C. Wright and son Warner arrived in the city this noon from Hamline for an extended visit with Mr. and Mrs. C. P. Wright of this city.

## Cosmopolitan South Africa

South Africa is among the most cosmopolitan places in the world, according to L. Kee, writing in the Sydney Bulletin.

"I saw a suitcase in the window of a shop in Durban and decided to buy it," says Kee. "A pleasant Hindu took my order and requisitioned a negro boy to get the article from the window. A girl (niece) unaccountable because only her eyes were visible; but they had a suspicious blue Chinese tint in their whites) typed the sale note, and an aged white man took my cash. Finally a Zulu, dressed like Beelzebub, rickshaved me and the case to the hotel. Each addressed the other in a different lingo."

## Land in Extreme North?

The theory that land exists between Alaska and the pole has persisted for hundreds of years, and Dr. R. A. Harris, an American geographer, won considerable notice a few years ago by offering Arctic tide tables as proof of the existence of a large land mass north of Alaska, says Burt M. McConnell, in the Independent. There is also the fact that geese and ducks have been observed flying directly northward from Point Barrow during the early summer, and returning with their young a few months later from the same point of the compass. These are a few of the interesting theories in favor of the existence of land.

## The Passing Show

"Give me a sentence with the word andante."  
"I love my uncle andante."  
"Give me a sentence with the word ammonite."  
"Ammonite track, cried Sherlock Holmes exultantly."  
"Give me a sentence with the word toothache."  
"Turn on the water, I wanttoothache a bath."—The Passing Show.

## Music Affects Muscles

Cheerful music actually increased the lifting power of the muscles in recent experiments, while slow and melancholy melodies exerted the reverse influence. This is a new form of an old idea. Seamen used to work by song, while Gladstone cured neuralgia by listening to quieting strains.

## Cajun Justices Not

### Ruled by Blackstone

The old cajun justices of southwest Louisiana were important personages. The trials, which were held at the justices' homes, were made all-day affairs, the neighbors driving in from miles around. Evidence was taken informally, although the verdict was usually based upon the justice's point of view rather than upon any mere point of law.

For example, I know of a planter who brought suit against one of his tenants for the recovery of a calf. His ownership being proved, he was awarded possession of the animal. Next he was ordered to pay the costs of the court.

"But," objected the planter, "I have won my case. The loser should pay." "True," agreed the justice. "But then, m'sieu, you have the money, whereas the other has not."

However, it was in domestic matters that these "prairie judges" really shone. One of them declared proudly that he could marry and divorce quicker than any other man in the state.

"It is quite simple," said he. "Gobbie wishes to tie up with some girl. That is all right. He gives me \$5 and I write down his marriage in my book."

"After a while he don't like it? He wants to be free? That is all right again. For \$10 more I tear out the page."—Nevill Henshaw in Adventure Magazine.

## Kruger's Idea Was to

### Make Camp on Ocean

The sight of the trackless ocean and a ship punching the waves, always brings back to this writer the authentic story of Paul Kruger, the president of the Transvaal republic, and his attempt to teach a group of Hottentot children the story of America's discovery, Pierre Van Passen writes, in the Atlanta Constitution. His representation of a ship conjured up a mental picture of a floating covered wagon. Oom Paul's imagination may have been magnificent, but it failed him miserably on the occasion when he was traveling from Capetown to Southampton in the pathetic mission of seeking aid for his country at the chancelleries of Europe. When night descended Oom Paul, who in his youth had slain an African lion with his bare hands, became nervous and agitated. Finally he could hold out no longer. Briskly he climbed the ladder to the captain's bridge. The officer saluted. "Tell me," said the Boer president, "where do you plan to unlatch tonight. It's getting dark, you know, and I think we had better make camp." When reassured by the skipper he went back to his cabin, read the story of St. Paul's shipwreck, drank a stein of beer and fell asleep.

## The Dirty Work

The helplessness of mere man in the presence of ordinary domestic tasks was illustrated in the case of the old miner, who explained that he had once tried to improve his cooking by studying a book of recipes. "It was no use," he said sadly, "because every one of them receipts starts off with 'take a clean dish.'"

He was kin to one of the sons of a Mrs. MacLeod. She was called away from home one day just after dinner. As she was leaving she said to one of the boys:

"One of you must wash the dishes and the other wipe them and put them away, so that everything will be tidy when I get back."

"All right, mother," said Jack, "but Will's got to wipe them. I'm willing to wash, but wiping is such greasy work."

# SIEVERS ON TRIAL FOR BANK WRECKING

ACCUSED OF GRAND LARCENY OF \$23,000 FROM COUNTRY BANK

STATE CHARGES THIS AS PART OF A MILLION DOLLAR WRECKING PLOT

Buffalo, Minn., July 9.—(UP)—After testimony regarding doubtful assets had been introduced the state today swung back to presenting routine evidence in the trial of Hugo H. Sievers, former president of the First National Bank of Buffalo, accused of grand larceny of \$23,000 from the Maple Lake State Bank.

Sievers and Carl Melberg, former president of the Maple Lake institution are jointly under indictment and are two of five men, whom the state charges were conspirators in a million dollar wrecking plot. Melberg is in a Minneapolis hospital.

Testimony Thursday related to various notes and mortgages that were included among the assets credited to the Maple Lake bank. R. T. McBeth and E. F. Stokes, whose names were signed, were on the stand.

McBeth was questioned regarding a note and mortgage in his name. He testified he was a friend of Melberg, that he had signed papers "without reading them" to accommodate Melberg and that he never owned any property in Minnesota. He expressed surprise when he was shown a deed from Mr. and Mrs. Melberg to himself and his wife of postoffice property at Big Lake, Minn.

Stokes testified he borrowed \$580 from the Maple Lake State bank, that Melberg offered to release the notes if he would sign new notes in blank and that he complied, only to find himself owing \$4,000 on property he did not own.

The records, which purported to show that the board of directors of the bank absolved Sievers of blame in connection with a certain transaction, were challenged by two other witnesses.

They were A. G. Johnson and Elmer Peterson, members of the board, who testified they were present at a directors' meeting held February 28, 1925, and supported Henry Spindler, former president of the institution and an officer since its organization, who declared no such action was taken.

McBath was questioned regarding a note and mortgage in his name. He testified he was a friend of Melberg, that he had signed papers "without reading them" to accommodate Melberg and that he never owned any property in Minnesota. He expressed surprise when he was shown a deed from Mr. and Mrs. Melberg to himself and his wife of postoffice property at Big Lake, Minn.

Stokes testified he borrowed \$580 from the Maple Lake State bank, that Melberg offered to release the notes if he would sign new notes in blank and that he complied, only to find himself owing \$4,000 on property he did not own.

The records, which purported to show that the board of directors of the bank absolved Sievers of blame in connection with a certain transaction, were challenged by two other witnesses.

They were A. G. Johnson and Elmer Peterson, members of the board, who testified they were present at a directors' meeting held February 28, 1925, and supported Henry Spindler, former president of the institution and an officer since its organization, who declared no such action was taken.

## Nominee For State Representative Charged With Stealing Coal

Minneapolis, July 9.—(UP)—A nominee for state representative was one of four men arraigned here today on a charge of stealing 600 tons of coal worth \$8,000 from the Western Coal and Dock company.

John S. Davis, a salesman for the company, was the legislative nominee accused.

Despite the fact that police claim a confession from one of the quartet all four pleaded not guilty and were held in \$2,000 bail.

## Governor to Sign Death Warrant of Whittemore

Baltimore, Md., July 9.—(UP)—Governor Albert C. Ritchie announced today that he would sign the death warrant of Richard Rees Whittemore within a few days. Whittemore lost his chance to escape the gallows late yesterday when the court of appeals at Annapolis denied him a new trial for the murder of Robert Holtman, Maryland penitentiary guard.

## OIL DRILLING NEAR FERGUS FALLS

Fergus Falls, Minn., July 9.—(UP)—Oil drilling operations are continuing on the Foxhome leaseholds. A test drill has passed through a 121 foot layer of sand and is now in blue clay. The terrific pressure of the sand which forced the 1,000 pounds of drilling machinery upward forty feet has delayed operations.

WILD BILL MEHLHORN FIGHTING TO RETAIN LEAD AT SCIOTO

GOES OUT IN 36, EVEN PAR, TODAY ON COLUMBUS COURSE

By HARRY W. SHARPE  
(United Press Staff Correspondent)  
Scioto Country Club, Columbus, O., July 9.—(UP)—The United States Golf Association today voted to hold the 1927 National Amateur Golf Championship at Minnekahta club, Minneapolis, Minn.

Scioto Country Club, Columbus, O., July 9.—Fighting to retain the lead which he established over the field in the National Open Championship by a brilliant 68 on the first day, Wild Bill Mehlhorn of the Old Colony club, Chicago, went out in 36, even par, today.

Mehlhorn had a lot of trouble on the last eight, however, and finished with a total of 75, a total of 143 for the two days.

The Chicagoan was disgusted with today's performance but still is certain to be one of the low scorers. His score is one stroke under par for the 36 holes played.

Leo Diegel of New York, who was among the first ten with a 72 yesterday, shot a 76 today, giving him a total of 148.

Scioto Country Club, Columbus, O., July 9.—Spurred by the terrific pace set by Wild Bill Mehlhorn, the Chicago boy, the nation's premier golfers set out this morning for the second round of the National Open Golf Championship.

Mehlhorn's 68 garnered yesterday over the first 18 holes, was two better than the cards turned in by Bobby Jones, the American amateur and British open titleholder, and John Junor, Portland, Ore., who at the last moment loomed as a formidable contender.

Only one stroke behind Jones' and Junor's 70's were Al Espinosa, Chicago, and Joe Turnesa, New York, who collected 71, one stroke better than Willie MacFarlane, the defending champion, who turned in a par score of 72 after a sensational game. MacFarlane's 72 put him in a four way tie for fourth place with Pat Doyle, Leo Diegel and J. G. Collins, the latter a Kokomo, Ind., dark horse.

Today's play will be over 18 holes and tomorrow the 60 golfers with the best scores will battle over 36 holes for the championship.

A terrifically hot sun, untempered by a breeze and accentuated by the parched turf, greeted the starters as they teed off this morning.

Although Mehlhorn's round yesterday equalled the course record, he cannot afford to slip today, so experts declared, pointing out that two strokes is no great handicap for Bobby Jones. Little is known of Junor who came in at twilight.

Many eyes today were on Walter Hagen, who scored a 73 yesterday after a series of bad slips and plenty of hard luck.

Other scores ranged from 75 to 90.

### HIGH WINDS PLAY

#### HAVOC WITH GOLF SCORES

Scioto Country Club House, Columbus, O., July 9.—Trouble and more trouble overtook the field in the National Open Golf Championship. This afternoon played havoc with scores, blew away the hopes of several contenders and generally made life miserable for all concerned.

Bobby Jones, Willie MacFarlane, Walter Hagen and other leaders were victims of the high winds and deadly rough and had the greatest difficulty in keeping within sight of par.

Bill Mehlhorn who needed a 75 to get around, was still well out in front with 143 for the first two rounds.

Joe Turnesa with 145 was the only one close by in mid-afternoon. Walter Hagen took a 77 for an aggregate of 150 for the 36 holes.

George McLean and Leo Diegel turned in 148's.

Willie MacFarlane required 79 for an aggregate of 151.

Bobby Jones was always in trouble and was not sinking the long ones he usually rolls into the cups. His score for the first nine was 39 and he had to work to get it.

Scioto Country Club, Columbus, O., July 9.—The following are the results of the first 18 holes played today plus yesterday's scores:

Bill Mehlhorn, 36-39-75-143.  
Harry Rees, 35-41-76-161.  
George Herron, 37-39-76-152.  
Joe Turnesa, 36-38-74-145.  
J. J. O'Connor, 42-42-84-157.  
George McLean, 38-36-74-148.  
J. W. Kenny, 38-38-76-155.  
J. E. Brennan, 39-40-79-154.

### Y. M. C. A. 14, MERRIFIELD 4

Th Y. M. C. A. team went to Merrifield on Monday, July 5th, for a game with the team of that place, and won handily by a score of 14 to 4. Sandgren was in fine form and pitched a great game for the winners, errors behind him accounting for the Merrifield runs.

The Y sluggers pounded Bud Keller, Merrifield pitcher, hard in two innings, scoring five runs in the third, and six in the sixth. Bollens, with a triple, double and single and Dillan, with two doubles and a single, did the heaviest hitting.

The line-up of the Y team was as follows: Dillan, c; Sandgren, p; Larson, 1b; Orth, 2b; Bollens, ss; Thompson, 3b; Molstad, lf; Brown, cf; Cregar, rf. Ingolf Dillan and Mr. Keller acted as umpires.

Lake Hopatcong, N. J.—Jose R. Casablanca of Havana led the field 2 to 0 after the first two rounds of the Pan-American chess tournament here.

**Slattery Outpoints Sage**  
New York—Jimmy Slattery of Buffalo easily outpointed Bob Sage of Detroit in 10 rounds last night.

**International Checker Match**  
Chicago—Newell W. Banks, checker champion of America in Chicago for two exhibition matches, announced an international team match between 12 men teams representing the United States and England in New York, the first week of March. Elimination series will be held at Cedar Point, O., August 2.

**Sammy Mandell Remembers Sister**  
Rockford, Ill.—Sammy Mandell, lightweight boxing champion of the world, presented a \$20,000 home to his sister, Marian, just before he left Rockford for his honeymoon in New York. Sammy previously had purchased a home for his father, having him retire from his job in the foundry.

**Tod Morgan to Risk Title**  
Newark, N. J.—Tod Morgan, the fighting junior lightweight champion, will risk his title again tonight in meeting Johnny Kochansky, New Jersey's leading contender, in Boyle's Thirty Acres. Kochansky will have to knock out the fast coast boxer to win the title as no decisions are permitted under New Jersey laws.

**George Lott's Playing Creates Sensation**  
Detroit—George Lott of Chicago, who has proved the sensation in the preliminaries, will play in the semifinals of the national clay courts tennis tournament here today as a result of his victory over Granston Holman, Palo Alto Cal. With Lott, Big Bill Tilden, B. I. C. Norton, San Antonio, and A. H. Chaplin, Jr., Springfield, Mass., advanced in yesterday's matches.

### Many Prepare for Channel Swim

Left to right—Eva Morrison, Gertrude Ederle and Helen Wainwright.

Conquest of the treacherous English channel, a 20-mile struggle against tremendous odds accomplished only by five men in more than half a century, will be attempted this year by a record-breaking entry from Europe and the Americas.

Eighteen swimmers, eleven of whom are women, are in training for the test, several having already established headquarters at Cape Gris-Nez, France.

**Fair Athletics to Attempt.**  
International rivalry, developing from representation in the competitive field by six countries, will be exceeded only by interest in the attempts of the fair athletes, an outgrowth of the world-wide attention attracted to the futile effort of Gertrude Ederle last year, Miss Ederle has signified her intention of making a second attempt this season.

Two other American girls will join Miss Ederle in the test, Helen Wainwright, holder of many amateur swimming championships before she entered the professional ranks last year, has been training in Florida for several months. Helen Canon of Baltimore, who attracted attention this winter in the South by her remarkable endurance in the water, also has made plans to try the rough journey. Against this trio will be pitted the foremost woman swimmers of England, France, Canada, South America and Egypt. Outstanding among the latter starters are Mme. Jane Slon of France, who reached within about two miles of Dover last year; Lillian Harrison of Buenos Aires, who likewise failed in 1925; Eva Morrison of Picton, N. S., and Suzanne Wurtz, a former French champion. Three English women and one from Egypt complete the list.

**Other Prospective Starters.**  
Isak Helmy, the Egyptian giant, who rescued Gertrude Ederle and Lillian Harrison from the water on their unsuccessful attempts last year after they had collapsed, is included in the 1928 male entry. Norman Ross of Detroit, former amateur champion and record-holder, and Dick Howell, erstwhile Northwestern university swimming star, will be America's male entrants.

Omer Perrault of Canada, who failed two years ago; Jean Demerville of Geneva, Georges Michel and Georges Pooley of France are other prospective starters.

### PETE LATZO TO FIGHT WITH GEORGE LEVINE

#### NEW WELTERWEIGHT CHAMPION TO DEFEND TITLE SECOND TIME

### SCRANTON TO SEND A LARGE DELEGATION TO SEE NATIVE SON FIGHT

New York, July 9.—(UP)—Pete Latzo, the new welterweight champion, will defend his title for the second time in ten weeks here tonight in a scheduled 15-round bout with George Levine.

A delegation of Scranton fight fans was expected to jam into the Polo Grounds early to cheer the champion.

Lazo has proved himself a dangerous fighter by his victory over Mickey Walker and by flooring Willie Harmon recently in Newark. However, he was reported to be somewhat weakened by making the weight limit.

Levine is one of the most dangerous of the present contenders.

Sid Terris and Ruby Goldstein, who were to appear in the preliminaries have withdrawn and probably will arouse the ire of the boxing commission as a result. Substitute preliminaries have been arranged.

### Watching the Scoreboard

**Yesterday's Hero**—George Uhle, who kept the Yankees at bay in the first game of the Indians' second eastern invasion, Cleveland beating New York 6 to 1.

**The Athletics climbed into second place** when they cut short a ninth inning rally of the White Sox that had netted five runs and eked out an 8 to 7 victory.

**The Phillies evened up the series** by batting four Pittsburgh pitchers for 16 hits to win 10 to 6.

**The Red Sox, with 15 safe blows,** had little difficulty in stopping Detroit, 7 to 3.

**Rallying in the last two innings** the Colonels pounded out a 6 to 5 win over the Senators.

**Milwaukee slugged its way to a 17 to 7 victory** over the Millers.

**Taking an early lead** the Blues defeated the Saints, 5 to 2.

**The Indians defeated the Mudhens** in a 14 inning contest, 5 to 4.

## BRAINERD GOES TO BEMIDJI FOR GAME WITH FAST TEAM

ZAKARIASEN TO TRY BRINGING N. P. TEAM'S FIRST VICTORY

NORMAN OUT WITH INJURIES, WILL NOT BE ABLE TO CATCH

The Brainerd N. P. city team will go to Bemidji for a game with the fast city team of that place on Sunday of this week, in another attempt to shake off the jinx that has pursued the team all season with an unbroken string of defeats.

On the broad shoulders of Zakariasen will rest the burden of trying to score the first victory of the season for the local team. Zak has pitched two games for the team this year, and has been ill-lucked into a defeat on each occasion. This Sunday the team is rarin' to go, and sacrificial offerings are being made to Dame Fortune, seeking her help in getting the breaks of the game.

Assisting Zakariasen will be the regular infield, composed of Hanson on first, Peterson on second, Uddenberg at short, and Ware at third. A revamped outfield will tend the gardens, composed of Nutting, Swanson and Sheffo. With this outfield and infield, the Bemidjites will have to place their hits carefully to push any men around the paths.

Norman is again laid up with injuries, and will be unable to catch. His substitute has not yet been named, but someone of great ability will be secured. Some of the team will leave on the afternoon train Saturday, and the rest will leave on the night train.

### KING'S CUP AIR RACE ON IN GREAT BRITAIN

Hendon Airdrome, England, July 9.—(UP)—The King's cup air race began today with some of the speediest fliers in the world competing. Three small De Havilland "Moths" took off first at 10 a. m. after a two hour delay due to fog. It was expected that 14 other starters will get off with various handicaps to fly over the double triangle course twice today and twice tomorrow. The competitors will fly 732 miles today.

### Poker Not Entirely According to Hoyle

The traveling agent of a liver pill concern in the East struck this town to contract for an advertisement in the Torchlight, remarks the editor of the Snagtown (Ark.) Torchlight. Finding that he was an old newspaper man and that he purposed remaining two or three days to take in the town, we set out to post him on some of the idioms and customs. He thought he knew it all, however, and that's the reason he is in bedroom No. 48 in the hotel with a bullet in his groin.

It seems that he dropped into the White Eagle still and took a hand in a game of poker. The game is rather eccentric in this town. Sometimes two pairs beat four of a kind, and sometimes not. It is a good deal according to who is playing and how much there is up. It seems that our friend got a royal flush and was called by three jacks. He at once jumped to the conclusion that he had won the jackpot, but he was sadly mistaken. Tom Ephraim Smith was in the game, and it was an occasion when a pair of sixes, if held by Tom, would beat four aces. While raking in the pot the liver pill man was stopped by a bullet, and even if he gets well he will have a limp in his left leg. This town isn't as big as Chicago or New York, nor as wicked as St. Louis or Cincinnati, but we have our customs and idioms just the same, and the stranger who can't tumble to them must take the consequences.

### Financial Deal Made Miser's Passing Easy

"Arnold Bennett," said a New York publisher, "wrote a book about a miser, 'Riceyman Steps,' and when I ventured to tell him that there were no misers nowadays, he told an anecdote to contradict me.

"He said a chap named Scrooge was dying, and when the doctor let him know he had only an hour more to live, he passed his weak hand over his bristly chin and said in his weak voice:

"Send for—a barber."

"When the barber arrived Scrooge said to him:

"How much—to shave me?"

"Sixpence, sir," said the barber.

"And how much to shave a corpse?"

gasped Scrooge.

"Four shillins to shave a corpse, sir," the barber answered.

"Shave me, then," said Scrooge.

"So the barber shaved him, and when the job was over Scrooge smiled a ghastly smile and muttered:

"Three and six—to the good."

"Then his head fell back and he breathed his last."—Pittsburgh Chron-

Today's play will be over 18 holes and tomorrow the 60 golfers with the best scores will battle over 36 holes for the championship.

A terrifically hot sun, untempered by a breeze and accentuated by the parched turf, greeted the starters as they teed off this morning.

Although Mehlhorn's round yesterday equalled the course record, he cannot afford to slip today, so experts declared, pointing out that two strokes is no great handicap for Bobby Jones. Little is known of Junor who came in at twilight.

Many eyes today were on Walter Hagen, who scored a 73 yesterday after a series of bad slips and plenty of hard luck.

Other scores ranged from 75 to 90.

### HIGH WINDS PLAY

### HAVOC WITH GOLF SCORES

Scioto Country Club House, Columbus, O., July 9.—Trouble and more trouble overtook the field in the National Open Golf Championship. This afternoon played havoc with scores, blew away the hopes of several contenders and generally made life miserable for all concerned.

Bobby Jones, Willie MacFarlane, Walter Hagen and other leaders were victims of the high winds and deadly rough and had the greatest difficulty in keeping within sight of par.

Bill Mehlhorn who needed a 75 to get around, was still well out in front with 143 for the first two rounds.

Joe Turnesa with 145 was the only one close by in mid-afternoon.

Walter Hagen took a 77 for an aggregate of 150 for the 36 holes.

George McLean and Leo Diegel turned in 148's.

Willie MacFarlane required 79 for an aggregate of 151.

Bobby Jones was always in trouble and was not sinking the long ones he usually rolls into the cups. His score for the first nine was 39 and he had to work to get it.

Scioto Country Club, Columbus, O., July 9.—The following are the results of the first 18 holes played today yesterday's scores:

Bill Mehlhorn, 36-39-75—143.  
Harry Rees, 35-41-76—161.  
George Herron, 37-39-76—152.  
Joe Turnesa, 36-38-74—145.  
J. J. O'Connor, 42-42-84—157.  
George McLean, 38-36-74—148.  
J. W. Kenny, 38-38-76—155.  
J. E. Brennan, 39-40-79—154.

## Y. M. C. A. 14, MERRIFIELD 4

Th Y. M. C. A. team went to Merrifield on Monday, July 5th, for a game with the team of that place, and won handily by a score of 14 to 4. Sandgren was in fine form and pitched a great game for the winners, errors behind him accounting for the Merrifield runs.

The Y sluggers pounded Bud Keller, Merrifield pitcher, hard in two innings, scoring five runs in the third, and six in the sixth. Bolens, with a triple, double and single and Dillan, with two doubles and a single, did the heaviest hitting.

The line-up of the Y team was as follows: Dillan, c; Sandgren, p; Larson, 1b; Orth, sb; Bollens, ss; Thompson, 3b; Molstad, lf; Brown, cf; Cregar, rf. Ingolf Dillan and Mr. Keller acted as umpires.

## SPORT TABLOIDS

### Pan-American Chess

Lake Hoptacong, N. J.—Jose R. Casablanca of Havana led the field 2 to 0 after the first two rounds of the Pan-American chess tournament here.

### Slattery Outpoints Sage

New York—Jimmy Slattery of Buffalo easily outpointed Bob Sage of Detroit in 10 rounds last night.

### International Checker Match

Chicago—Newell W. Banks, checker champion of America in Chicago for two exhibition matches, announced an international team match between 12 men teams representing the United States and England in New York, the first week of March. Elimination series will be held at Cedar Point, O., August 2.

### Sammy Mandell Remembers Sister

Rockford, Ill.—Sammy Mandell, lightweight boxing champion of the world, presented a \$20,000 home to his sister, Marian, just before he left Rockford for his honeymoon in New York. Sammy previously had purchased a home for his father, having him retire from his job in the foundry.

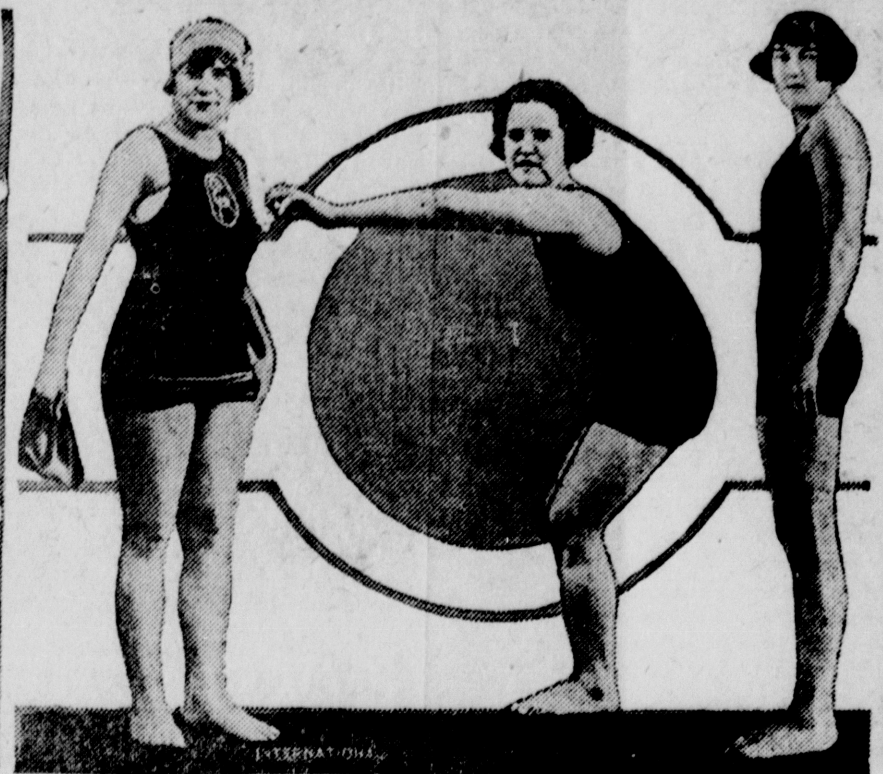

### Tod Morgan to Risk Title

Newark, N. J.—Tod Morgan, the fighting junior lightweight champion, will risk his title again tonight in meeting Johnny Kochansky, New Jersey's leading contender, in Boyle's Thirty Acres. Kochansky will have to knock out the fast coast boxer to win the title as no decisions are permitted under New Jersey laws.

### George Lott's Playing Creates Sensation

Detroit—George Lott of Chicago, who has proved the sensation in the preliminaries, will play in the semi-finals of the national clay courts tennis tournament here today as a result of his victory over Granston Holman, Palo Alto Cal. With Lott, Big Bill Tilden, B. I. C. Norton, San Antonio, and A. H. Chaplin, Jr., Springfield, Mass., advanced in yesterday's matches.

## Many Prepare for Channel Swim

Left to right—Eva Morrison, Gertrude Ederle and Helen Wainwright.

Conquest of the treacherous English channel, a 20-mile struggle against tremendous odds accomplished only by five men in more than half a century, will be attempted this year by a record-breaking entry from Europe and the Americas.

Eighteen swimmers, eleven of whom are women, are in training for the test, several having already established headquarters at Cape Gris-Nez, France.

### Fair Athletes to Attempt.

International rivalry, developing from representation in the competitive field by six countries, will be exceeded only by interest in the attempts of the fair athletes, an outgrowth of the world-wide attention attracted to the futile effort of Gertrude Ederle last year. Miss Ederle has signified her intention of making a second attempt this season.

Two other American girls will join Miss Ederle in the test, Helen Wainwright, holder of many amateur swimming championships before she entered the professional ranks last year, has been training in Florida for several months. Helen Canon of Baltimore, who attracted attention this winter in the South by her remark-

able endurance in the water, also has made plans to try the rough journey.

Against this trio will be pitted the foremost woman swimmers of England, France, Canada, South America and Egypt. Outstanding among the latter starters are Mme. Jane Slon of France, who reached within about two miles of Dover last year; Lillian Harrison of Buenos Aires, who likewise failed in 1925; Eva Morrison of Picton, N. S., and Suzanne Wurtz, a former French champion. Three English women and one from Egypt complete the list.

### Other Prospective Starters.

Ishak Helmy, the Egyptian giant, who rescued Gertrude Ederle and Lillian Harrison from the water on their unsuccessful attempts last year after they had collapsed, is included in the 1926 male entry. Norman Ross of Detroit, former amateur champion and record-holder, and Dick Howell, erstwhile Northwestern university swimming star, will be America's male entrants.

Omer Perrault of Canada, who failed two years ago; Jean Demieville of Geneva, Georges Michel and Georges Pooley of France are other prospective starters.

### The Inevitable Phrase

Finality of expression is one of those literary qualities instantly recognizable in the event, and not in the least susceptible of analysis. There is the unerring selection of the word, the precise turn of phrase, the ultimate fitness of form, plus something beyond definition which, along with these others, contributes to the feeling of inevitability.—David Morton in "The Sonnet Today—and Yesterday."

## BRAINERD GOES TO BEMIDJI FOR GAME WITH FAST TEAM

ZAKARIASEN TO TRY BRINGING N. P. TEAM'S FIRST VICTORY

NORMAN OUT WITH INJURIES, WILL NOT BE ABLE TO CATCH

The Brainerd N. P. city team will go to Bemidji for a game with the fast city team of that place on Sunday of this week, in another attempt to shake off the jinx that has pursued the team all season with an unbroken string of defeats.

On the broad shoulders of Zakariassen will rest the burden of trying to score the first victory of the season for the local team. Zak has pitched two games for the team this year, and has been ill-lucked into a defeat on each occasion. This Sunday the team is rarin' to go, and sacrificial offerings are being made to shake off the jinx that has pursued the team all season with an unbroken string of defeats.

Assisting Zakariassen will be the regular infield, composed of Hanson on first, Peterson on second, Uddenberg at short, and Ware at third. A revamped outfield will tend the gardens, composed of Nutting, Swanson and Sheffo. With this outfield and infield, the Bemidjites will have to place their hits carefully to push any men around the paths.

Norman is again laid up with injuries, and will be unable to catch. His substitute has not yet been named, but someone of great ability will be secured. Some of the team will leave on the afternoon train Saturday, and the rest will leave on the night train.

## KING'S CUP AIR RACE ON IN GREAT BRITAIN

Hendon Airfield, England, July 9.—(UP)—The King's cup air race began today with some of the speediest fliers in the world competing. Three small De Havilland "Moths" took off first at 10 a. m. after a two hour delay due to fog. It was expected that 14 other starters will get off with various handicaps to fly over the double triangle course twice today and twice tomorrow. The competitors will fly 732 miles today.

## Poker Not Entirely According to Hoyle

The traveling agent of a liver pill concern in the East struck this town to contract for an advertisement in the Torchlight, remarks the editor of the Snagtown (Ark.) Torchlight. Finding that he was an old newspaper man and that he purposed remaining two or three days to take in the town, we set out to post him on some of the idioms and customs. He thought he knew it all, however, and that's the reason he is in bedroom No. 48 in the hotel with a bullet in his groin.

It seems that he dropped into the White Eagle still and took a hand in a game of poker. The game is rather eccentric in this town. Sometimes two pairs beat four of a kind, and sometimes not. It is a good deal according to who is playing and how much there is up. It seems that our friend got a royal flush and was called by three jacks. He at once jumped to the conclusion that he had won the jackpot, but he was sadly mistaken. Tom Ephraim Smith was in the game, and it was an occasion when a pair of sixes, if held by Tom, would beat four aces. While raking in the pot the liver pill man was stopped by a bullet, and even if he gets well he will have a limp in his left leg. This town isn't as big as Chicago or New York, nor as wicked as St. Louis or Cincinnati, but we have our customs and idioms just the same, and the stranger who can't tumble to them must take the consequences.

## Financial Deal Made Miser's Passing Easy

"Arnold Bennett," said a New York publisher, "wrote a book about a miser, 'Riceyman Steps,' and when I ventured to tell him that there were no misers nowadays, he told an anecdote to contradict me.

"He said a chap named Scrooge was dying, and when the doctor let him know he had only an hour more to live, he passed his weak hand over his bristly chin and said in his weak voice:

"Send for—a barber."

"When the barber arrived Scrooge said to him:

"How much—to shave me?"

"Sixpence, sir," said the barber.

"And how much to shave a corpse?"

gaspd Scrooge.

"Four shillin' to shave a corpse, sir," the barber answered.

"Shave me, then," said Scrooge.

"So the barber shaved him, and when the job was over Scrooge smiled a ghastly smile and muttered:

"Three and six—to the good."

"Then his head fell back and he breathed his last."—Pittsburgh Chron-

## N. P. CAR DEPARTMENT ON SIX DAY WEEK NOW

New Schedule Took Effect Last Saturday to Affect 290 Employees

### EMPLOYEES ARE PLEASED

Other Departments Will Not be Affected by Hour Increase, Officials Say

The car department of the Northern Pacific railway shops here, employing 290 men have started on a new schedule, increasing their working days from five and one-half days a week to six days a week, according to announcement made this morning from the office of the superintendent.

The new schedule took effect last Saturday. It will not affect the other departments of the railway here who will continue their schedule as before.

The longer hours per week is due to the amount of work necessitated to be done on the cars for the fall trade at this time of the year. The car department has been running on five and one-half days a week for almost two years.

## MASONS' JOINT PICNIC AT MIDLAND

Aurora Lodge No. 100 Working in Conjunction With Little Falls

DATE SET FRIDAY, JULY 16

Afternoon Given Over to Sport Events, Bathing, Etc.—Evening to Dancing

Aurora Lodge No. 100 together with the Little Falls lodge will hold a joint picnic for all Masons, Eastern Stars and DeMolays at Midland on Mille Laes Lake, July 16th, invitations having been issued to all neighboring lodges so a large crowd is assured.

The afternoon will be taken up with sport events, bathing etc., while in the evening here will be dancing in the hall from 8 o'clock until midnight, with music by the Hedstrom orchestra.

Midland being an ideal picnic spot with its bathing beach and ample grounds it is expected there will be a record gathering of the brothers and their families to enjoy the day's outing, many bringing their own picnic dinners while others will be served at the several places nearby.

It is hoped next year to make this picnic an annual affair with all the neighboring lodges joining.

## TRUNK HIGHWAYS UNIFORMLY GOOD

Minnesota trunk highways are nearly all good, according to the weekly condition report issued by the State highway department today.

In most parts of the state there has been just enough moisture to make good maintenance work possible.

One new detour, between Pine City and Mission Creek, has been opened on No. 1, due to paving work. The detour north of Sturgeon Lake has been changed and traffic uses part old road and part pavement to Moose Lake, then detour to Chomwell and T. H. No. 2 to Carlton.

Detailed reports covering conditions of the so-called "Babeoek roads" marked with the official yellow star, follow, insofar as they refer to roads in the Brainerd lake region:

T. H. No. 2—Duluth, Brainerd, Wadena, Detroit and Moorhead—264 miles—Duluth, paved—Carlton, good—McGregor, fair—Aitkin, fair—Brainerd, good—Wadena, good—Moosehead.

T. H. No. 18—Elk River, Milaca, Garrison and Brainerd—102 miles—All good.

T. H. No. 19—Brainerd, Walker and Cass Lake—97 miles—Generally good.

T. H. No. 27—St. Cloud, Little Falls and Brainerd—66 miles—St. Cloud, paved—Belle Prairie, detour fair—Brainerd.

## CAT AND DOG ARGUMENT AIRED IN THE COURTS

Beloit, Wis., July 9. — (UP)—Bobby Roth, heavy hitting outfielder of the Beloit Fairies and former member of the Cleveland Indians, Senators, Yankees, Athletics, White Sox and Boston teams in the big show, is to have his cat and dog argument aired before a jury in the municipal court on July 20.

Roth's run in with the police resulted from his apparent interest in watching his big airedale repeatedly toss a kitten up in the air and catch it in his mouth. Ed Hamblin, who says he watched the game for 15 minutes finally went to the kitten's rescue with the result Bobby uncorked a wicked right aimed at Ed's jaw. The blow missed, but landed on a glass in a closed automobile. Police then ended the game by taking both dog and Bobby to the station.

## ALD. ANDERSON GIVES HIS STORY

Says He Did Not Recommend Cut in Wages of City Laborers

### COUNCIL MINUTES QUOTED

Alderman Anderson Votes No on Motion That Wages Remain as in Past

Alderman Martin Anderson who was reported in the Dispatch in the council meeting proceedings on Wednesday evening, as opposing the present wage scale of the city street men of 50 cents and recommending a reduction to the scale used by the City Water and Light department of 45 cents an hour, today in a letter to the Dispatch claims he did not recommend a cut in the salary of the laborers.

Mr. Anderson's letter follows: Publisher Daily Dispatch:

I noticed in your paper of July 7th, 1926, an article under "Proceedings of Brainerd City Council," Tuesday, July 6, whereas it so states that I recommended cut in salary of laborers comparing the salaries paid by the Water and Light Board and the city council. That statement is a lie and I defy any councilman or anyone in attendance at that meeting to tell me that I did say that. I compared the wages paid between the two departments and was asked by the council what I wanted done and I told them as chairman of the Finance Committee that these conditions should be reported and action taken by the council, which was taken care of.

I ask that this statement be corrected and that in future that the employee of the Dispatch taking the records of the minutes be correctly stated.

Hoping that this will be taken care of in this issue of the Dispatch, I am,

Respectfully,  
MARTIN ANDERSON,  
Vice President City Council.

The following is the minute that will appear on the city clerk's book for the next council meeting as written by Mrs. E. T. Fleener on this matter:

Alderman Anderson objected to a part of city engineer's payroll referring to Jacob Paine's wages of 60 cents per hour, foreman of sewer work and laborer and compared the city scale of wages of 50 cents an hour with the scale set by the Water and Light Board of 45 cents an hour. After a discussion Alderman Paine moved, Alderman Quamstrom seconded, that the wages remain as in the past.

All voted aye except Alderman Martin Anderson who voted no.

## Didn't You Wish for a Slicker This Morning or a Good Umbrella

### They Would Have Saved a Drenching

A slicker might be termed rain insurance for one's clothes. You do not need it unless it does rain. But then you need one very badly and quickly.

If one has one, they can be sure of having it when the need arises, but without one, we have no protection, just when we need it most. Better buy one right now and have it for the next rain when you will be sure to want one.

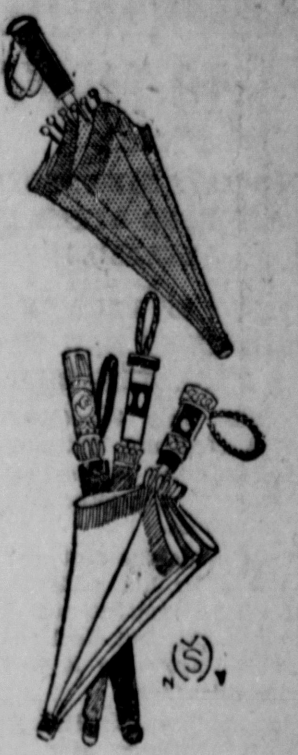

These we are showing are good looking, serviceable, water-proof, cemented seam coats, in attractive plain shades, bright pretty plaids and some of these are reversible.

## N. P. CAR DEPARTMENT ON SIX DAY WEEK NOW

New Schedule Took Effect Last Saturday to Affect 290 Employees

### EMPLOYEES ARE PLEASED

Other Departments Will Not be Affected by Hour Increase, Officials Say

The car department of the Northern Pacific railway shops here, employing 290 men have started on a new schedule, increasing their working days from five and one-half days a week to six days a week, according to announcement made this morning from the office of the superintendent.

The new schedule took effect last Saturday. It will not affect the other departments of the railway here who will continue their schedule as before.

The longer hours per week is due to the amount of work necessitated to be done on the cars for the fall trade at this time of the year. The car department has been running on five and one-half days a week for almost two years.

## MASONS' JOINT PICNIC AT MIDLAND

Aurora Lodge No. 100 Working in Conjunction With Little Falls

DATE SET FRIDAY, JULY 16

Afternoon Given Over to Sports, Events, Bathing, Etc.—Evening to Dancing

Aurora Lodge No. 100 together with the Little Falls lodge will hold a joint picnic for all Masons, Eastern Stars and DeMolays at Midland on Mille Lacs Lake, July 16th, invitations having been issued to all neighboring lodges so a large crowd is assured.

The afternoon will be taken up with sports events, bathing etc., while in the evening there will be dancing in the hall from 8 o'clock until midnight, with music by the Hedstrom orchestra.

Midland being an ideal picnic spot with its bathing beach and ample grounds it is expected there will be a record gathering of the brothers and their families to enjoy the day's outing, many bringing their own picnic dinners while others will be served at the several places nearby.

It is hoped next year to make this picnic an annual affair with all the neighboring lodges joining.

## TRUNK HIGHWAYS UNIFORMLY GOOD

Minnesota trunk highways are nearly all good, according to the weekly condition report issued by the State highway department today. In most parts of the state there has been just enough moisture to make good maintenance work possible.

One new detour, between Pine City and Mission Creek, has been opened on No. 1, due to paving work. The detour north of Sturgeon Lake has been changed and traffic uses part old road and part pavement to Moose Lake, then detour to Chomwell and T. H. No. 2 to Carlton.

Detailed reports covering conditions of the so-called "Babcock roads" marked with the official yellow star, follow, insofar as they refer to roads in the Brainerd lake region:

T. H. No. 2—Duluth, Brainerd, Wadena, Detroit and Moorhead—264 miles—Duluth, paved—Carlton, good—McGregor, fair—Aitkin, fair—Brainerd, good—Wadena, good—Moorhead.

T. H. No. 18—Elk River, Milaca, Garrison and Brainerd—102 miles—All good.

T. H. No. 19—Brainerd, Walker and Cass Lake—97 miles—Generally good.

T. H. No. 27—St. Cloud, Little Falls and Brainerd—66 miles—St. Cloud, paved—Belle Prairie, detour fair—Brainerd.

## CAT AND DOG ARGUMENT AIRE IN THE COURTS

Beloit, Wis., July 9. — (UP)—Bobby Roth, heavy hitting outfielder of the Beloit Braves and former member of the Cleveland Indians, Senators, Yankees, Athletics, White Sox and Boston teams in the big show, is to have his cat and dog argument aired before a jury in the municipal court on July 20.

Roth's run in with the police resulted from his apparent interest in watching his big airedale repeatedly toss a kitten up in the air and catch it in his mouth. Ed Hamblin, who says he watched the game for 15 minutes finally went to the kitchen's rescue with the result Bobby uncorked a wicked right aimed at Ed's jaw. The blow missed, but landed on a glass in a closed automobile. Police then ended the game by taking both dog and Bobby to the station.

## ALD. ANDERSON GIVES HIS STORY

Says He Did Not Recommend Cut in Wages of City Laborers

### COUNCIL MINUTES QUOTED

Alderman Anderson Votes No on Motion That Wages Remain as in Past

Alderman Martin Anderson who was reported in the Dispatch in the council meeting proceedings on Wednesday evening, as opposing the present wage scale of the city street men of 50 cents and recommending a reduction to the scale used by the City Water and Light department of 45 cents an hour, today in a letter to the Dispatch claims he did not recommend a cut in the salary of the laborers.

Mr. Anderson's letter follows: Publisher Daily Dispatch:

I noticed in your paper of July 7th, 1926, an article under "Proceedings of Brainerd City Council," Tuesday, July 6, whereas it so states that I recommended cut in salary of laborers comparing the salaries paid by the Water and Light Board and the city council. That statement is a lie and I defy any councilman or anyone in attendance at that meeting to tell me that I did say that. I compared the wages paid between the two departments and was asked by the council what I wanted done and I told them as chairman of the Finance Committee that these conditions should be reported and action taken by the council, which was taken care of.

I ask that this statement be corrected and that in future that the employees of the Dispatch taking the records of the minutes be correctly stated.

Hoping that this will be taken care of in this issue of the Dispatch, I am,

Respectfully,  
MARTIN ANDERSON,  
Vice President City Council.

The following is the minute that will appear on the city clerk's book for the next council meeting as written by Mrs. E. T. Fleener on this matter:

Alderman Anderson objected to a part of city engineer's payroll referring to Jacob Paine's wages of 60 cents per hour, foreman of sewer work and laborer and compared the city scale of wages of 50 cents an hour with the scale set by the Water and Light Board of 45 cents an hour. After a discussion Alderman Paine moved, Alderman Quamstrom seconded, that the wages remain as in the past.

All voted aye except Alderman Martin Anderson who voted no.

## WHITE EAGLE OIL STATION TO OPEN

New Service Station Has Been Completed on Mill Avenue and O Street

### OPENING TOMORROW

Souvenir of One Half Gallon Oil to be Given to Patrons on Opening Day

The new White Eagle Service Station on Mill avenue and O street, Northeast, will be formally opened to the public tomorrow, it was announced today by Charles G. Peabody, manager.

During the opening day, Mr. Peabody will personally distribute a souvenir of one half gallon can Key-noll Motor Oil to every patron purchasing five gallons or more of the new White Eagle balance gasoline.

## Didn't You Wish for a Slicker This Morning or a Good Umbrella

### They Would Have Saved a Drenching

A slicker might be termed rain insurance for one's clothes. You do not need it unless it does rain. But then you need one very badly and quickly.

If one has one, they can be sure of having it when the need arises, but without one, we have no protection, just when we need it most. Better buy one right now and have it for the next rain when you will be sure to want one.

These we are showing are good looking, serviceable, water-proof, cemented seam coats, in attractive plain shades, bright pretty plaids and some of these are reversible.

## JARDINE SAYS FARMER ENTITLED TO TARIFF AID

SHOULD HAVE SAME PROTECTION  
AFFORDED OTHER IN-  
DUSTRIES

SPEAKS AT ST. PAUL ON ADMIN-  
ISTRATION'S NEW CO-OP.  
MARKETING BILL

St. Paul, July 9.—(UP)—Secretary of Agriculture William M. Jardine believes the farmer is entitled to the same tariff protection afforded other industries.

Jardine made the statement in an interview after his address before the American Institute of Co-operation last night, but declined to enlarge on it, asserting it would only engender bitterness.

In his address, Jardine discussed the administration's new co-operative marketing bill and declared that service to co-operative organizations without "undue control or meddling" will be the government's agriculture policy under the new measure.

The only reference Jardine made to the present plight of agriculture was the assertion that the administration's co-operative legislation was never intended to perform "the difficult task of emergency farm relief."

"Co-operative marketing," Jardine declared, "is primarily a business and should be given the same freedom which is granted other business enterprises. On the other hand, the government cannot adopt a let alone policy toward co-operation. The development of agriculture justified the performance of services which will promote and foster any movement."

"Speaking for the United States department of agriculture, I can say that it has consistently pursued a policy of attempting to be of the utmost service to co-operatives without attempting to control or regulate them."

## BRIEF RESPITE FROM HEAT WAVE

PROMISED TODAY TO THE SWEL-  
TERING NORTHWEST  
AREA

St. Paul, July 9.—(UP)—A brief respite from the heat wave that has kept the northwest sweltering for the last two days was promised today but it will be only temporary and will be followed by rising temperatures Saturday.

South Dakota reported the highest temperatures in the country yesterday. At Huron the mercury reached 96 and at Sioux Falls it was 95. Other parts of the northwest reported temperatures in the 90's.

The heat was intensified by a high humidity. The weather forecast for Minnesota was for showers in the east and south portions and cooler in the south portion, to be succeeded Saturday by rising temperatures.

### Classification of Cities

In America every town governed by a mayor and corporation is generally known as a city. In Canada the name is given to towns having more than a certain population. In Great Britain cities are created by royal authority, and the general rule now is that the dignity is given to a great town which is also the center of an important industrial district.

"I tell you before I got Karnak my stomach didn't seem to digest a thing. Food would lie like lead in the pit of my stomach, bloat me up as tight as a drum with gas, and cramping pains would almost draw me double. I went through this kind of agony after every meal."

HUMIDITY AFFECTS STOCK MARKET

New York, July 9.—(UP)—Speculative participation in the market was diminished by the extreme humidity today but there was no indication of falling off in investment demand. Seasoned stocks have been steadily removed from the market by outright purchases in large volume of late causing an additional advance in rails. Industrials continued to be affected by heavy profit taking in Steel, General Motors and other recent leaders, but pressure in these failed to check sharp advances in various specialties. The market closed lower.

THROWN INTO AUTOMOBILE AND  
WHISKED AWAY BY  
THREE PEOPLE

Los Angeles, Cal., July 9.—(UP)—An eye witness of the purported kidnaping of Aimee Semple McPherson was produced today by the evangelist. He is Harry C. Swift, who claims he saw Mrs. McPherson thrown into an automobile near the Venice bath house on the afternoon of May 18 and whisked away by two men and a woman.

Swift's story may be told to the Los Angeles county grand jury when it convenes next Tuesday. Mrs. McPherson told her story of the kidnaping to the jury yesterday, after which the jury adjourned to meet again next Tuesday.

The evangelist said she was satisfied her story as related to the jury was convincing.

"I told the whole story," she said after the six hours of questioning. "I am sure that no one in the room had any reason to doubt it."

These are some of the causes which have hastened the end for many prominent men during recent years:

Employer and employee alike have been subjected to greater strain of brain and nerves than ever before.

Too often the value of guarding the

health has been overlooked and the results are a warning to the survivors to remember that health, after all, is our biggest asset.

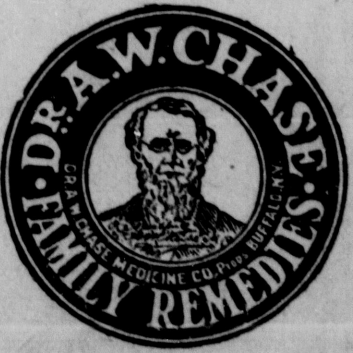

It is comparatively easy to restore the exhausted nerves by the use of Dr. Chase's Tonic Pills provided treatment is begun in reasonable time.

When digestion breaks down—when you cannot rest or sleep—when you find yourself nervous and irritable you may be sure it is time to ease up and begin the use of this restorative treatment.

The brain and nerve cells are not getting proper nutrition. Nor will they so long as too much nervous energy is wasted in worry and anxiety and too little left to control the organs of digestion.

There is no magical way in which the depleted nerve cells can be restored. They must be patiently nourished back to health and strength.

This restorative process is best brought about by the use of Dr. Chase's Tonic Pills. This has been proven in so many thousands of cases that evidence is to be found in almost every community.
